

The Complete ANALECTS OF CONFUCIUS

Volume 3

Hailed as the most celebrated Chinese thinker, the figure of Confucius epitomizes the spirit of lifelong learning. Hence it is no surprise that *The Analects of Confucius* has been made the basic textbook of Chinese education for more than 2,000 years.

In just 12,000 characters, the classic covers a wide scope ranging from politics and management to education, art and morality. The sage's sayings and dialogues with his disciples are included, making the work an indispensable material for a comprehensive study of the thoughts and person of Confucius.

This exhaustive three-volume compilation contains the English translation, the classical text and its modern Chinese paraphrase.

Together with the humorous depiction by cartoonist Jeffrey Snow, this rendition promises enrichment and unending delight.
