The Publishers Weekly, 1913 **All Consuming** Ruby Tandoh, 2025-09-09 Hype restaurants Allrecipes The Great British Bake Off Food dominates our every waking minute In this dazzling cultural history acclaimed food writer Ruby Tandoh traces the story of how and why we've all become foodies Ruby Tandoh is a genius and All Consuming is everything Bryan Washington author of Family Meal A fascinating sometimes shocking eye opener that is also brilliantly funny Claudia Roden How in the space of a few decades has food gone from fact of life to national past time something to be thought about and talked about 24/7 In this startlingly original deeply irreverent cultural history Ruby Tandoh traces how our culinary tastes have been transformed how they've been pulled into supermarket aisles and seduced by Michelin stars transfixed by Top Chefs and shaped by fads All Consuming is a deep dive into the social economic cultural legislative and demographic forces that have reshaped our relationship with food From the rise of the food writer to the dream of the modern dinner party from the unlikely adoption of bubble tea to the advent of the TikTok restaurant critic in these essays Tandoh questions how our tastes have been shaped and how much they are in fact our own *Photography* Michelle Henning, 2023-01-06 We live in a time in which photographs have become extraordinarily mobile They can be exchanged and circulated at the swipe of a finger across a screen The digital photographic image appears and disappears with a mere gesture of the hand Yet this book argues that this mobility of the image was merely accelerated by digital media and telecommunications Photographs from the moment of their invention set images loose by making them portable reproducible projectable reduced in size and multiplied The fact that we do not associate analogue photography with such mobility has much to do with the limitations of existing

histories and theories of photography which have tended to view photographic mobility as either an incidental characteristic or a fault. Photography: The Unfettered Image traces the emergence of these ways of understanding photography but also presents a differently nuanced and materialist history in which photography is understood as part of a larger development of media technologies. It is situated in much broader cultural contexts caught up in the European colonial ambition to grasp the world and in the development of a new artificial second nature dependent on the large scale processing of animal and mineral materials. Focussing primarily on Victorian and 1920s/30s practices and theories it demonstrates how photography was never simply a technology for fixing a fleeting reality.
