Did you know for instance that chia seeds can be used not only as an egg substitute and gelling agent but in ice creams, baked goods, jams and even cheeses? Or that coconut oil can easily be used to replace commercial vegan butters? How about making some decadent whipped cream from coconut cream? Or substituting savory jackfruit for shredded meat and French lentils for burgers? Inside, readers will learn how to not only substitute for dairy, eggs, meat, seafood and more using more natural and vegetable centric ingredients but also how to make their own all natural versions of these foods. While some of the ingredients and techniques discussed in the original book bear repeating, *The Complete Guide to Even More Vegan Food Substitutions* stands rightly on its own two feet.
