The Complete Of Us Fighting Power:

U.S. combat air power United States. General Accounting Office,1996 *The Technology Trap* Lloyd J. Dumas,2010-09-02 In this eye opening book author Lloyd J Dumas argues that our capacity for developing ever more powerful technologies and the unavoidable fallibility of both machine and man will lead us towards a disaster of an unprecedented scale Most of us assume that those in charge can always find a way to control any technology mankind creates no matter how powerful But in a world of imperfect human beings who are prone to error emotion and sometimes to malevolent behavior this could be an arrogant and disastrous assumption This book is filled with compelling factual stories that illustrate how easy it is for situations to go terribly wrong despite our best efforts to prevent any issue The author is not advocating an anti technology return to nature nor intending to highlight the marvels of our high tech world Instead the objective is to reveal the potential for disaster that surrounds us in our modern world elucidate how we arrived at this predicament explain the nature and ubiquity of human fallibility expose why proposed solutions to these Achilles heels cannot work and suggest alternatives that could thwart human induced technological disasters **American Power in the 21st Century** David Held,Mathias Koenig-Archibugi,2004-11-19 America wields a combination of military economic and cultural power that many consider unprecedented The way America uses this power has repercussions on every major issue of world affairs including the prospects of regional security the spread of democratic governance and the provision of global public goods in economic and environmental domains This volume explores the questions raised by American power from a variety of perspectives Is the emphasis laid on military power likely to be self defeating for the United States in the long run Is soft power or persuasion a more effective way to promote American interests and goals How is American predominance perceived in Europe China and the Arab world Will it last or will other powers coalesce to resist US hegemony The authors address these and other fundamental questions in rigorous and historically sensitive analyses of this critical juncture in global politics The book will be of great interest to students and scholars in political science and international relations as well as all those concerned with and by one of the key topics of our time Contributors include Robert Cooper Michael Cox Zhiyuan Cui Abdelwahab El Affendi G John Ikenberry Robert Kagan Mary Kaldor Joseph S Nye Thomas Risse Professional Journal of the United States Army ,1983 Papers Relating to the Foreign Relations of the United States United States.
