Her essays on the art of fiction and on the writers who enlarged the range of the short story and the novel are definitive pieces. Her distinguished book reviews along with her critical essays augment her reputation for being one of the most discerning author critics in literary America. This collection of her book reviews manifests the connecting of her penetrating eye with her responsive intellect in forming sympathetic judgments of the books she reviewed. Between 1942 and 1984 Welty wrote sixty seven reviews of seventy four books. Fifty eight of these appeared in the *New York Times Book Review* and others in the *Saturday Review of Literature*, *Tomorrow*, the *Hudson Review*, the *New York Post* and the *Sewanee Review*. The reviewed books include novels, short story collections, books of essays, biographies and memoirs, books of letters, children's books, books

*The Geographies of African American Short Fiction* Kenton Rambsy, 2022-03-25 Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives The Geographies of African American Short Fiction seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple

locations small towns a famous metropolis city sidewalks a rural wooded area apartment buildings a pond a general store a prison and more In the process these writers highlighted the extents to which places and spaces shaped or situated racial representations Presenting African American short story writers as cultural cartographers author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century Anthology editors solidified the significance of a core group of short story authors including James Baldwin Toni Cade Bambara Charles Chesnutt Ralph Ellison Zora Neale Hurston and Richard Wright Using quantitative information and an extensive literary dataset *The Geographies of African American Short Fiction* explores how editorial practices shaped the canon of African American short fiction *The Complete Short Stories of W.D.
