INTRODUCTION

The Auditing Standards Committee of the Auditing Section of the American Accounting Association is pleased to provide comments on Proposed Statement on Auditing Standards—*External Confirmations* (AICPA 2009). The views expressed in this letter are those of the members of the Auditing Standards Committee and do not reflect an official position of the American Accounting Association. In addition, the comments reflect the overall consensus view of the Committee, not necessarily the views of every individual member. We hope that our attached comments and suggestions are helpful and will assist in finalizing the proposed standard.

(2) Are the Revisions Made to Converge the Existing Standard with ISA 505 Appropriate?

As noted by the Audit and Attest Standards staff, the primary difference between the requirements of the proposed standard and ISA 505 (IAASB 2009) are the presumptive requirement to confirm accounts receivable. The Committee agrees that this requirement is appropriate for the U.S. environment, particularly to address the existence assertion. Revenue recognition concerns identified in SAS No. 99 (AICPA 2002) and in Beasley et al. (1999), including special terms and the use of side agreements, suggest the continued need for confirmations as part of the audit. We recommend that the standard include explanatory language that explains the presumptive requirement for accounts receivable confirmations. For example, Paragraph 19b in the conforming
