The Conflict Between Labor and Capital Albert Sidney Bolles, 1876 **The Conflict Between Labor and Capital** Albert Sidney Bolles, 1877 *Between Labor and Capital* Pat Walker, 1979 The lead essay by Barbara and John Ehrenreich opens the debate about the nature of the middle class Do those who work between labor and capital constitute a third class or will different sectors tend to ally with either the working class or the capitalist class or is a whole new conception of the dynamics of social change necessary **Report of the Committee of the Senate Upon the Relations Between Labor and Capital, and Testimony Taken by the Committee** United States. Congress. Senate. Committee on Education and Labor, United States. Congress. Senate. Committee upon the Relations Between Labor and Capital, 1885 **Report of the Committee of the Senate Upon the Relations Between Labor and Capital** Henry William Blair, *The Irrepressible Conflict Between Labor and Capital* Anonymous, 2023-07-18 This impassioned call to arms for the rights of labor was written by one of the leading voices of the American socialist movement in the early 20th century In it Green examines the history of the struggle between workers and capitalists from the earliest days of industrialization to the present He argues that the only way to achieve social justice is through a radical restructuring of the economic system based on the principles of democratic socialism This book remains a powerful indictment of the exploitation and oppression of the working class and a stirring vision of a better world This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Conflict and Catholic Social Ethics** Taylor J. Ott, 2024-11-01 This book focuses on the question of how to understand conflict and its place in Catholic and Christian social ethics The author examines Catholic social teaching CST for its explicit mentions of conflict or contention and analyzes the way that CST addresses the subjects of peace labor and environment While CST offers precedent to think about conflict within the frame of Catholic ethics its lack of explicit engagement remains a major obstacle to a full rich and concrete understanding of the fabric of society and the work of social justice Any social ethic that is not informed by the presence of conflict misses a major dynamic in society and therefore leads to ethical judgements that are at best inadequate and at worst actively harmful Building upon the insight of respected thinkers within Catholic social thought this study is based on an interdisciplinary method that engages sociology political theory postcolonial theory and intersectional feminist ethics The book will be of particular interest to theological ethicists and those who work with modern CST **Reports of the Silver Commission of 1876** United States. Human Territoriality Robert David Sack,1986-11-06 First published in 1986 this book demonstrates that territoriality for humans is not an instinct but a powerful and often indispensable geographical strategy used to control people and things by controlling area This argument is developed by analysing the possible advantages and disadvantages that territoriality can provide and by considering why some and not others arise at particular times Major changes are explored in the relationships between territory and society from primitive times to the present day with special attention to the distinctions between premodern and modern uses of space and territory Specific analyses of the pre modern uses of territoriality are provided by the history of the Catholic Church and for the modern context by study of North American political territorial organization and the organization of factory office and home **Addresses - Empire Club of Canada** Empire Club of Canada,1920
