Religion and Ecological Sustainability in China James Miller, Dan Smyer Yu, Peter van der Veer, 2014-04-29 This book sheds light on the social imagination of nature and environment in contemporary China It demonstrates how the urgent debate on how to create an ecologically sustainable future for the world s most populous country is shaped by its complex engagement with religious traditions competing visions of modernity and globalization and by engagement with minority nationalities who live in areas of outstanding natural beauty on China s physical and social margins The book develops a comprehensive understanding of contemporary China that goes beyond the tradition modernity dichotomy and illuminates the diversity of narratives and worldviews that inform contemporary Chinese understandings of and engagements with nature and environment

Methods of Doing Eastern Philophies Chanh Phan, *Neo-Confucian Ecological Humanism* Nicholas S. Brasovan, 2017-03-27 In this novel engagement with Ming Dynasty philosopher Wang Fuzhi 1619 1692 Nicholas S Brasovan presents Wang s neo Confucianism as an important theoretical resource for engaging with contemporary ecological humanism Brasovan coins the term person in the world to capture ecological humanism s fundamental premise that humans

and nature are inextricably bound together and argues that Wang's cosmology of energy qi gives us a rich conceptual vocabulary for understanding the continuity that exists between persons and the natural world. The book makes a significant contribution to English language scholarship on Wang Fuzhi and to Chinese intellectual history with new English translations of classical Chinese Mandarin and French texts in Chinese philosophy and culture. This innovative work of comparative philosophy not only presents a systematic and comprehensive interpretation of Wang's thought but also shows its relevance to contemporary discussions in the philosophy of ecology.

Religious Perspectives on Human Vulnerability in Bioethics
 Joseph Tham, Alberto Garcia, Gonzalo Miranda, 2014-07-07 With the advance of biomedicine certain individuals and groups are vulnerable because of their incapacities to defend themselves. The International Bioethics Committee as a UNESCO working group has for the last several years dedicated to deepen this principle of human vulnerability and personal integrity. This book serves to supplement this effort with a religious perspective given a great number of the world's population is affiliated with some religious traditions. While there is diversity within each of these traditions all of them carry in them the mission to protect the weak, the underprivileged and the poor. Thus here presented is a collection of papers written by bioethics experts from six major world religions: Buddhism, Christianity, Confucianism, Hinduism, Islam, and Judaism, who were gathered to discuss the meaning and implications of the principle of vulnerability in their respective traditions.

A Reader's Companion to the Confucian Analects
 H. Rosemont, 2012-10-29 This companion is not intended as another interpretation of the ancient text but rather as an aid for contemporary students to develop their own interpretive reading of it in the hope of thereby aiding them in the search for meaning, purpose and service in their own lives as seventy-three generations of Chinese have done.

Human Nature, Ritual, and History
 Antonio S. Cua, 2005-03 In this volume distinguished philosopher Antonio S. Cua offers a collection of original studies on Xunzi, a leading classical Confucian thinker, and on other aspects of Chinese philosophy.

Classics and Interpretations
 Ching-I Tu, 2017-11-30 In recent years in the West scholars have attempted to unravel old constructs of interpretation and understanding using the discipline of hermeneutics or the scientific study of textual interpretation. Borrowed from students of the ever-growing body of biblical interpretive literature that originated in the early Christian era, theoretical hermeneutics has given many contemporary scholars potent tools of textual interpretation. *Classics and Interpretations* applies this method to Chinese culture. Several essays focus on hermeneutic traditions of Neo-Confucianism. Others move outside of these traditions to attempt an understanding of the role of hermeneutics in Taoist and Buddhist textual interpretation in Chinese poetics and painting and in contemporary Chinese culture. This volume makes a concerted effort to remedy our ignorance of the Chinese hermeneutical tradition.

Part 1: The Great Learning and Hermeneutics demonstrates the use of commentary to define how the individual creates his social self and discusses differing interpretations of the Ta Hsueh text and its treatment as either canonical or heterodox.

Part 2: Canonicity and Orthodoxy considers the philosophical touchstones employed by Neo-Confucian canonical exegetes and polemicists and discusses the

Han canonization of the scriptural Five Classics while illuminating a double standard that existed in the hermeneutical regime of late imperial China Part 3 Hermeneutics as Politics discusses the transformation of both the classics and scholars and explores the dominant hermeneutic tradition in Chinese historiography the scriptural tradition and reinterpretation of the Ch un ch iu and reveals the pragmatism of Chinese hermeneutics through comparison of the Sung debates over the Mencius The concluding sections include essays on Chu Hsi and Interpretation of Chinese Classics Hermeneutic Traditions in Chinese Poetics and Non Confucian Contexts Reinterpretation of Confucian Texts in the Ming Ch ing Period and Contemporary Interpretations of Confucian Culture Through these literate and brilliantly written essays the reader witnesses not merely the great breadth and depth of Chinese hermeneutics but also its continuity and evolutionary vigor This volume will excite scholars of the Confucian Buddhist and Taoist systems of thought and belief as well as students of history and hermeneutics
