The Constitution Of The Ego:

The Constitution of the Ego Alfred Percy Sinnett, 1899 The Constitution of the Ego A. P. Sinnett, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work Presence and Coincidence Chr Macann, 2012-12-06 For some twenty years now I have been working on a philosophical programme which falls into two parts a systematic metaphysics to be entitled Being and Becoming conceived in the general framework of ontological phenomenology but employing what I call a genetic methodology and an historical interpretation designed to support and confirm the ontological philosophy in question The historical part of the overall programme was originally conceived in the form of an Epochal Interpretation of the history of modern philosophy from Descartes on Part of the material accumulated towards such an Epochal Interpretation has however been deployed rather differently First the Kant material has already been turned into an interpretive transformation of Kant s Critical Philosophy Second the material on Husserl s Phenomenological Philosophy now forms the basis of the present study The interpretive transformation of Kant s Critical philosophy was published by Winter Verlag in the context of a Humboldt fellowship In that work I took Heidegger s Kant and the Problem of Metaphysics as my model Like Heidegger I subjected the Critical Philosophy to an interpretive procedure as a result of which I finished up with structures matching and reflecting the basic structures of my own genetic ontology But I sought to overcome certain limitations inherent in the Heideggerian project **Husserl and the Promise of Time** Nicolas de Warren, 2009-11-05 This book examines Husserl s treatment of time consciousness and its significance for his conception of subjectivity **Ontology and Ethics in Sartre's Early Philosophy** Yiwei Zheng, 2005-01-01 At the end of Being and Nothingness Sartre made the curious claim that his ethical views follow from his ontology and are based on it Yiwei Zheng argues that there are unbridgeable gaps between Sartre s ontology and ethics that cannot be filled in and in the process provides a careful study of some notoriously murky notions in Sartre s early philosophy Calling into question much of what has passed as received wisdom in Sartrean studies Ontology and Ethics in Sartre s Early Philosophy offers fresh insights to scholars of philosophy ethics and Sartre **The Prism of the Self** S.G. Crowell, 2013-03-09 This volume contains 100 essays written by his students and colleagues in honor of Maurice Natanson The essays explore some of the diverse themes Professor Natanson has pursued through forty years of teaching and philosophizing in the tradition of existential phenomenology Because it also includes a lengthy biographical and philosophical interview where one can find an absorbing account of Natanson s Lebens au in his own words there is no need to detail that polypragmatic career here Suffice to say that even passing acquaintance with the man and the work will reveal that Edmund Husserl s self description holds equally of his distinguished interpreter I seek not to instruct but only to lead to

point out and describe what I see I claim no other right than that of speaking according to my best lights principally before myself but in the same manner also before others as one who has lived in all its seriousness the fate of a philosophical existence I For Natanson as the diversity of the contributions to this volume attest such seriousness involves something other than that narrow technical vision for which a topic is the more philosophical the less it has to do with anything else In Natanson s pages to say nothing of his teaching and conversation there are no men of straw but living breathing human beings with hirn philosophy s tentacles are ubiquitous

Husserl's Phenomenology James Richard Mensch, 2023-05-04 This text examines the many transformations in Husserl s phenomenology that his discoveries of the nature of appearing lead to It offers a comprehensive look at the Logical Investigations delimitation of the phenomenological field and continues with Husserl s account of our consciousness of time This volume examines Husserl s turn to transcendental idealism and the problems this raises for our recognition of other subjects It details Husserl s account of embodiment and takes largely from his manuscripts both published and unpublished dealing with his theory of instincts his considerations of mortality and the teleological character of our existence This book appeals to students and researchers and presents a genetic account of our selfhood one that unifies Husserl s different claims about who and what we are

The Study of Time II J. T. Fraser, N. Lawrence, 2012-12-06 The Second Conference of the International Society for the Study of Time was held at Hotel Mt Fuji near Lake Yamanaka Japan on July 1 to 7 1973 The present volume is the proceedings at that Con ference and constitutes the second volume in The Study of Time series At the closing session of our First Conference in Oberwolfach Germany in 1969 I was honored by being elected to the Presidency of the Society following Dr J G Whitrow our flrst President My mandate was to organize a Second Conference consistent with the aim of the Society which is the holding of interdisciplinary conferences for the presentation and discussion of papers on various as pects of time Several participants expressed to me their wish to have a second conference held in Japan so as to emphasize the international and intercultural dedication of this Society Dr Fraser carefully evaluated this and many other suggestions weighed the possible conference sites and our chances of raising the necessary funds to convene a meeting at such sites and concurred with my conclusions that we should go ahead with the plans for a Japanese meeting For the difficult and complicated task of raising funds and organizing a conference in Japan I had to select and rely heavily on somebody both capable and reliable and also living in Japan Thus I asked the Reverend Michael Mutsuo Yanase S J

Phenomenology Dermot Moran, Lester E. Embree, 2004 This set reprints the essential scholarship published in the field It includes a general introduction by the editors as well as individual volume introductions exploring and contextualising the main themes of the comprehensively covered tradition This is a key point of reference for anyone researching the phenomenological tradition

Empathy, Intersubjectivity, and the Social World Anna Bortolan, Elisa Magrì, 2022-02-07 The volume gathers together over twenty contributions that emerged from a conference held in in honour of Dermot Moran on the occasion of his retirement from University College Dublin The book explores the

contribution of phenomenology to empathy intersubjectivity affectivity and the constitution of the cultural and social world from both a historical and an applied philosophical perspective Theoretical and methodological differences in approach notwithstanding phenomenologists have converged in the recognition that self and others are fundamentally related and have provided fine grained accounts of the origin forms and implications of such relationship The volume critically reconstructs and further develops central aspects of this body of research within a pluralistic framework It offers a renewed investigation of the work of classical phenomenologists like Husserl Heidegger Sartre and Merleau Ponty as well as an original application of phenomenological concepts and theories to contemporary discussions on intentionality culture emotions and morality The book provides insights for scholars in phenomenological philosophy as well as in philosophy of mind and interpersonal and social experience *A Study of Husserl's Formal and Transcendental Logic* Suzanne Bachelard, Lester E. Embree, 1990-02 Originally published in French under the title *La Logique de Husserl tude sur Logique Formelle et logique transcendente* *Husserl* Paul Ricoeur, 1967-12 These nine essays present Ricoeur s interpretation of the most important of Husserl s writings with emphasis on his philosophy of consciousness rather than his work in logic

The Phenomenology of Husserl R. O. Elveton, 2020-11-25 These essays present appraisals of Edmund Husserl s phenomenological philosophy ranging from its earliest reception to the first comprehensive efforts to assess the full scope of Husserl s writings **The Development of Husserl's Thought** Th. de Boer, 2012-12-06 Although this book is a translation from Dutch the chief obstacle to be overcome was Husserl s German technical terminology As I sought English equivalents for German phenomenological terms I made thankful use of Dorion Cairns Guide for Translating Husserl as well as existing translations of Husserl s works especially J N Findlay s rendering of *Logische Untersuchungen* Since the technical terminology in the various translations and English studies of Husserl is far from uniform I had to devise my own system of equivalents for key Husserlian terms As I translated the quotations from Husserl s works into English I did consult the available translations and draw on them but I endeavored to keep the technical vocabulary uniform sometimes by fresh translations of the passages quoted and sometimes by slight alterations in the existing translations I made these changes not so much out of any basic disagreement with other translators as out of a desire to keep the terminology uniform throughout the book 1 For the benefit of German and French readers not entirely at home with the English phenomenological vocabulary I have included a small translation table in which my English equivalents for some central German terms are listed Words with cognates or well established phenomenological terms as their English equivalents have not been included Finally I should like to express my thanks to Prof *Edmund Husserl* Rudolf Bernet, Donn Welton, Gina Zavota, 2005 Edmund Husserl was the founding father of phenomenology and one of the most important philosophers of the twentieth century This will make available the very best essays on Husserl s thought from the past seventy years **Routledge Philosophy Guidebook to Husserl and the Cartesian Meditations** Arthur David Smith, 2003 Husserlian phenomenology has been

attracting increasing interest This volume provides an introduction to the key concepts that arise in the text of Husserl's Cartesian Meditations **The New Yearbook for Phenomenology and Phenomenological Philosophy** Burt

Hopkins, John Drummond, 2015-03-24 The New Yearbook for Phenomenology and Phenomenological Philosophy provides an annual international forum for phenomenological research in the spirit of Husserl's groundbreaking work and the extension of this work by such figures as Scheler Heidegger Sartre Levinas Merleau-Ponty and Gadamer *Islamic Philosophy and*

Occidental Phenomenology on the Perennial Issue of Microcosm and Macrocosm Anna-Teresa Tymieniecka, 2006-09-22 By proposing the Microcosm and Macrocosm analogy for dialogue between Islamic Philosophy and Occidental Phenomenology the authors of this volume are reviving the perennial positioning of the human condition in the play of forces within and without the human being This theme has run from Plato through the Middle Ages Renaissance and Modernity and has been ignored by contemporaries It now acquires a new pertinence and striking significance due to the scientific discoveries into the infinitely small in life on the one hand and the prodigious technological discoveries of the infinitely great on the other Both open up undreamt of prospects for the continuing conquest of cosmic forces The human person thrown into turmoil by the new approaches to life and needing to acquire new habits of mind having lost security of all beliefs desperately seeks a new clarification of the Human Condition within the unity of everything there is of cosmic forces and of his destiny The dialogue between Islamic Philosophy and phenomenology of life can show the way Papers by Gholam Reza A. Mittelstrass, 2018-08-06 Science is knowledge gained and justified methodically It is achieved by research and theory formation But what is a methodical procedure and what are methodically established justifications What kind of principles must be observed in order to obtain the degree of objectivity that is generally claimed by science What is the relation between science in the research mode and science in presentation mode i.e. in its theoretical form Do the same principles hold here And how are they justified Is it even possible to speak of justification in a theoretical sense Or do we have to be content with less with corroboration and confirmation Is the distinction between the context of discovery and the context of justification the last word in methodical and theoretical matters And how does this distinction relate to that between research and presentation the constitution of scientific objects on the one hand and theoretical propositions about them on the other The analyses and constructions in this book take up these questions They are explicitly intended as philosophical contributions not only in the sense implied by the disciplinary use of the term philosophy of science but also in the sense of a reflection on science that alongside more technical aspects of methodologies and elements of theories also has an eye for

anthropological and cultural aspects
