presidents especially those of the past three decades have increased the power of the presidency at the expense of democracy      *Hitler's Shadow Empire* Pierpaolo Barbieri,2015-04-14 A revealing look at Nazi involvement in the Spanish

Civil War their economic ambitions how it came to be and how they operated Pitting fascists and communists in a showdown

for supremacy the Spanish Civil War has long been seen as a grim dress rehearsal for World War II Francisco Franco's Nationalists prevailed with German and Italian military assistance a clear instance it seemed of like minded regimes joining forces in the fight against global Bolshevism In *Hitler's Shadow Empire* Pierpaolo Barbieri revises this standard account of Axis intervention in the Spanish Civil War arguing that economic ambitions not ideology drove Hitler's Iberian intervention The Nazis hoped to establish an economic empire in Europe and in Spain they tested the tactics intended for future subject territories The Nazis provided Franco's Nationalists with planes armaments and tanks but behind this largesse was a Faustian bargain Through weapons and material support Germany gradually absorbed Spain into an informal empire extending control over key Spanish resources in order to fuel its own burgeoning war industries This plan was only possible and profitable because of Hitler's economic czar Hjalmar Schacht a wizard of international finance His policies fostered the interwar German recovery and consolidated Hitler's dictatorship Though Schacht's economic strategy was eventually abandoned in favor of a very different conception of racial empire Barbieri argues it was in many ways a more effective strategic option for the Third Reich Deepening our understanding of the Spanish Civil War by placing it in the context of Nazi imperial ambitions *Hitler's Shadow Empire* illuminates a fratricidal tragedy that still reverberates in Spanish life as well as the world war it heralded Praise for *Hitler's Shadow Empire* A fascinating beautifully written account of a plan for the German economic domination of Europe that was pushed in the 1930s by the Nazis but above all by non Nazi and more traditionally oriented German economic bureaucrats Barbieri makes us think again about the relationship between economics and racial policies in the making of Nazi aggression Harold James author of *Making the European Monetary Union* *Hitler's Shadow Empire* recasts our understanding of the German and Italian interventions in the Spanish Civil War In this brilliant debut Barbieri shows that informal imperialism played a more important part than fascist ideology in the way that Berlin looked at the conflict Barbieri also has a keen ear for the continuing echoes of the Civil War for Spain and indeed for Europe today Niall Ferguson author of *The Ascent of Money*      Public Papers of the Presidents of the United States United States. President,1946      *Harry S. Truman* United States. President (1945-1953 : Truman),1962      **Guide to Government Information on Retailing** Joseph H. Rhoads,1949
