The Continental Renaissance, 1500-1600 A. J. Krailsheimer, W. A. Coupe, 1978 The Continental Renaissance 1500 1600 is concerned with the century of Ronsard and Ariosto Rabelais and Machiavelli Erasmus Luther and Calvin It was a period in which new ideas and new forms in art burgeoned to an unprecedented extent and in which the modern world began to take recognizable shape Nevertheless the world of the sixteenth century is remote from ours in many ways and its literature cannot be fully understood unless the reader knows something of its historical background and of the climate of ideas in which it was produced This information the volume is designed to supply It is divided into six main sections The Cultural and Historical Background Poetry Drama Prose Fiction The Literature of Ideas and Manners and Popular Literature Publisher

**International Exchange in the Early Modern Book World** Matthew McLean, Sara K. Barker, 2016-07-11 International Exchange in the Early Modern Book World presents new research on several aspects of the movement and exchange of books between countries languages and confessions It considers elements of the international book trade the circulation and collection of texts the practice of translation and the diffusion and exchange of technical and cultural knowledge Commercial and logistical aspects of the early modern book trade are considered as are the relationships between local markets and the internationally minded firms which sought to meet their expectations The barriers to the movement of books across borders political linguistic confessional cultural are explored as are the means by which these barriers were surmounted *The Continental Renaissance, 1500-1600* Alban John Krailsheimer, W. A. Coupe, 1978 Parody and Festivity in Early Modern Art David R. Smith, 2017-07-05 Dwelling on the rich interconnections between parody and festivity in humanist thought and popular culture alike the essays in this volume delve into the nature and the meanings of festive laughter as it was conceived of in early modern art The concept of carnival supplies the main thread connecting these essays Bound as festivity often is to popular culture not all the topics fit the canons of high art and some of the art is distinctly low brow and occasionally ephemeral themes include grobianism and the grotesque scatology popular proverbs with ironic twists and a wide range of comic reversals some quite profound Many hinge on ideas of the world upside down Though the chapters most often deal with Northern Renaissance and Baroque art they spill over into other countries times and cultures while maintaining the carnivalesque air suggested by the book's title Walford's Guide to Reference Material Albert John Walford, Anthony P. Bowler, 2014-06-06 This bestselling seminal book a general survey of Europe in the era of Renaissance and Reformation was originally published in Denys Hay's famous Series A General History of Europe It looks at sixteenth century Europe as a complex but interconnected whole rather than as a mosaic of separate states The authors explore its different aspects through the various political structures of the age empires monarchies city republics and how they functioned and related to one another A strength of the book remains the space it

devotes to the growing importance of town life in the sixteenth century and to the economic background of political change
