The Guns Of Arrest:

Following the Gun, 2000 The Firearms Owners Protection Act United States. Congress. Senate. Committee on the Judiciary, 1982 **Congressional Record** United States. Congress, 1994 **Point Blank** Gary Kleck, 2017-07-12 By 1990 there were approximately 200 million guns in private hands in the United States and around half of American households contained a gun Over 30 000 people a year are killed with guns in suicides homicides and accidents and Americans use guns for defensive purposes as many as a million times a year There is little doubt that gun violence and control are issues of vital importance and they continue to inspire national debate It is doubtful however that most gun debates are worth listening to Not surprisingly they generally leave their participants exactly where they began with their biases intact and onlookers perplexed Written deliberately to counter an atmosphere of hysteria and extremism **Point Blank** now in paperback offers logical argument supported by empirical information It confronts fundamental questions head on On its initial publication in 1993 **Point Blank** won the Michael J Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology **Point Blank** reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines including criminology sociology law and medicine The 13 Critical Tasks: An Inside-Out Approach to Solving More Gun Crime Peter Gagliardi, 2019-09-16 This book describes the people processes and technologies needed to extract actionable intelligence from the inside and outside of crime guns **Policing Gun Violence** Anthony Allan Braga, Philip J. Cook, 2023 In many U S cities gun violence is the most urgent crime problem High rates of deadly violence make a city less livable dragging down quality of life economic development and property values Drawing on fifty years of research and practical experience **Policing Gun Violence** argues that it is possible for the police to create greater public safety while respecting the rights of individuals and communities Anthony A Braga and Philip J Cook identify the most beneficial evidence based practices offering a comprehensive guide for deploying the authority and considerable resources of the police to reduce gun violence *International Handbook of Violence Research* Wilhelm Heitmeyer, John Hagan, 2003-12-31 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for

changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage

Language of the Gun Bernard E. Harcourt, 2010-02-15 Legal and public policies concerning youth gun violence tend to rely heavily on crime reports survey data and statistical methods Rarely is attention given to the young voices belonging to those who carry high powered semiautomatic handguns In *Language of the Gun* Bernard E Harcourt recounts in depth interviews with youths detained at an all male correctional facility exploring how they talk about guns and what meanings they ascribe to them in a broader attempt to understand some of the assumptions implicit in current handgun policies In the process Harcourt redraws the relationships among empirical research law and public policy Home to over 150 repeat offenders ranging in age from twelve to seventeen the Catalina Mountain School is made up of a particular stratum of boys those who have committed the most offenses but will still be released upon reaching adulthood In an effort to understand the symbolic and emotional language of guns and gun carrying Harcourt interviewed dozens of these incarcerated Catalina boys What do these youths see in guns What draws them to handguns Why do some of them carry and others not For Harcourt their often surprising answers unveil many of the presuppositions that influence our laws and policies
