Women and Language in Transition Joyce Penfield,1987-01-01 This collection of essays deals with the interplay of language and social change asking the question How can language and society be made gender equal The contributors examine the critical role of language in the lives of white women and women of color in the United States Since language pervades many dimensions of women s lives this study takes a multi disciplinary approach to the issues considered The volume is divided into three sections The first Liberating Language focuses on the active role women had in altering the extent of linguistic sexism in English during the 1970s A second section Identity Creation deals with the alteration of that portion of language which serves to name women and their experiences The final section Women of Color offers a rare and timely look at the particular problems confronted by minority women It argues that women of color have different problems and different links to language than white middle class women

Feminism in the Study of Religion Darlene Juschka,2001-08-02 Written by feminist scholars over a period of nearly thirty years the selected readings are wide ranging in content offer a multi ethnic and multi cultural perspective and reflect the work of scholars working within religious studies as well as other disciplines The introductory essays link the sections and are packed with useful information on resources issues and the current debates The book illustrates how debates about feminism within the study of religions have been impacted by broader theoretical discussions and provides evidence that feminist scholars working on religion have made their own contribution to feminist theory

Managing Diversity -- The Courage to Lead Elsie Y. Cross,2000-04-30 White women and people of color now constitute the majority of the U S workforce yet ninety seven percent of senior managers of Fortune 500 and Fortune 1 000 industrial companies remain white men It s clear that leaders of American organizations are requited to play key roles in a world that has become strange to them says Cross To succeed in an increasingly competitive global environment our organizational leaders must have the courage to act outside their comfort zones to try to understand interact with motivate develop and retain a work force that is alien to them Cross book provides the practical assistance they need Because racism sexism and other forms of oppression are not rational help cannot be found wholly in rationalism Such biases arise from emotional and psychological bases Our leaders are thus forced to confront their barriers within barriers that exist at every level of their organization

Cross uses her own experiences as an African American woman and as an experienced and recognized management consultant to demonstrate how oppression functions at the individual group and systems levels but her book is not a memoir. Rather it is a sophisticated explication of a complex and complete system of organizational change with case studies and other useful aids which if fully grasped will enable courageous leaders to succeed in understanding and dealing effectively with the urgent crosscultural and gender issues in the workplace

The book concludes with suggested projects related to these topics guidelines for non discriminatory language use and an extensive bibliography

Worlds Apart? Dunja M. Mohr, 2005-06-15
Literary critics and scholars have written extensively on the demise of the utopian spirit in the modern novel. What has often been overlooked is the emergence of a new hybrid subgenre particularly in science fiction and fantasy which incorporates utopian strategies within the dystopian narrative particularly in the feminist dystopias of the 1980s and 1990s. The author names this new subgenre transgressive utopian dystopias. Suzette Haden Elgin's *Native Tongue* trilogy Suzy McKee Charnas's *Holdfast* series and Margaret Atwood's *The Handmaid's Tale* are thoroughly analyzed within the context of this new subgenre of transgressive utopian dystopias. Analysis focuses particularly on how these works cover the interrelated categories of gender race and class along with their relationship to classic literary dualism and the dystopian narrative. Without completely dissolving the dualistic order the feminist dystopias studied here contest the notions of unambiguity and authenticity that are generally part of the canon
