The Hermeticians Guide To The Planets Signs And Houses:

The Hermetician's Guide to the Planets, Signs and Houses Stanley Kustesky,1981-05 **The Hermetic System of Astrology** Dennis W. Sutton,David S. Braumann,1996 **The hermetic system of astrology** ,1996 *Hermetic Astrology* Robert Powell,2006 This book starts with a meticulous explanation of terminology used in astronomy and astrology This can be considered as a splendid example of how to explain strictly scientific notions to readers who are not necessarily skilled in the exact sciences From an astronomical point of view the most interesting part of the work is the presentation of the old Egyptian world system which the author concludes was the same as the system of Tycho Brahe 1546 1601 He considers this astronomical system not just as a transitory historical conception but as something which possesses permanent value The author's deep historical studies made it possible for him also to solve the problem of the interchange of Mercury and Venus something indicated many years ago by Rudolf Steiner This is an important achievement in the history of astronomy The main astrological finding of this book is that the zodiac of the stars sidereal zodiac as employed by the Babylonians Egyptians and ancient Greeks is the authentic zodiac Moreover the author promotes a new type of astrological chart hermetic chart for the conception birth and death of personalities under consideration in addition to the customary geocentric horoscope and in place of the heliocentric horoscope promoted by Willi Sucher 1902 1985 With the hermetic chart the author places a new tool in the hands of astrologers and opens up new possibilities for astrology as a science On this basis he develops his two laws of reincarnation illustrating them by striking examples These laws express themselves by way of certain planetary configurations coinciding at the moments of birth and death in successive incarnations He believes that with these laws the significance of the tropical zodiac is disproved This work of Robert Powell presenting a new astrological system is a valuable step in the development of a new wisdom of the stars in line with the ideas of Willi Sucher Willi Sucher's books and articles are full of charm deep in a spiritual sense representing a star wisdom in an embryonic state With this book by Robert Powell the ideas of Willi Sucher are born as an earthly reality and something new is brought into the world Professor Konrad Rudni_ki Astronomical Observatory Jagiellonian University Cracow Poland **Planets in the Signs and Houses** Bepin Behari,2003-07-01 This book follows up on the foundation provided in Fundamentals of Vedic Astrology and delves into questions such as impulses likely to be generated by the planets in different signs and houses of the natal chart The author cuts through the obscurity of the centuries to present a clear and effective science with a deep psychological background and underpinning **Astrology for Mystics** Tayannah Lee McQuillar,2021-02-16 A guide to discovering and developing the spiritual and mystical talents hidden in your astrological chart Explores the 4th 8th and 12th houses of the natal astrological chart those connected with the water signs the deepest and darkest areas of the individual psyche profound spiritual insights and hidden knowledge Explains how to interpret the signs and planets in the water houses of your birth chart including how to develop the innate talents and spiritual powers you discover Reveals the occult and psychic significance of water and

shows how this significance is expressed in each of the three water signs Cancer Scorpio and Pisces the rulers of the water houses Your astrological birth chart or natal chart shows the positions of the planets sun and moon at the time of your birth Shaped like a circle or wheel it is divided into 12 sections or houses each connected with a different area of life or self The positions of the planets within the houses offer deep and often complex insight into your unique gifts and your life s path In Astrology for Mystics Tayannah Lee McQuillar explores the 4th 8th and 12th houses those connected with the element of water and all things occult mystical and spiritual The fourth house ruled by water sign Cancer is traditionally the house of family home ancestors and suffering The eighth house ruled by water sign Scorpio is the house of sex death secret powers and transformation The twelfth house ruled by Pisces is the house of karma loss unspoken expectations fantasy and confinement As McQuillar explains these are the houses that reveal the deepest and darkest areas of the individual psyche which many people are reluctant to explore yet this triad is the key to profound spiritual insights as well as the discovery of hidden knowledge and abilities The author guides you through interpreting the signs and planets that inhabit the water houses in your natal chart and shows how they reveal specific innate talents She describes how to develop the hidden powers revealed by your chart and offers practical advice for incorporating this knowledge into your daily life for spiritual growth and self improvement Sharing interpretation examples from her practice she also explores how to embrace the challenge of the occult water houses so you can claim the many treasures that can only be found on the ocean floor of the psyche
