The Marxism Of Regis Debray Between Lenin And Guevara:

The Marxism of Regis Debray Hartmut Ramm, 1978 **The A to Z of Marxism** David Walker, Daniel Gray, 2009-08-13
Marxism one of the few philosophies that turned into an effective movement was not so long ago the official ideology in one form or another of much of humanity It was initially promulgated by the Soviet Union then imposed on Central and Eastern Europe later emerged in the People's Republic of China and gradually spread to other parts of Asia Africa and Latin America Although declining in popularity the movement still remains in power in several countries and is supported by numerous parties and countless individuals around the world The A to Z of Marxism covers in a comprehensive manner the history of Marxism and its philosophers and schools of thought It contains a chronology a list of acronyms and abbreviations an introductory essay a bibliography and hundreds of cross referenced dictionary entries on basic terms and concepts as well as significant people parties and countries Book Jacket **Cuban Communism** Irving Louis Horowitz, Forty six essays presented by avowedly anti Castro editors and gathered mostly from US journals and books of the past couple decades are organized into five sections devoted to the history economy society military and polity of Cuba Some of the specific topics treated include Cuban and Soviet relations decentralization local government and participation economic policies and strategies for the 1990s the politics of sports political and military relations and forecasting institutional changes after Castro In addition two appendices present a chronology of the Cuban revolution from 1959 to 1998 and biographical essays on 19 revolutionary leaders Annotation copyrighted by Book News Inc Portland OR Historical Dictionary of Marxism Elliott Johnson, David Walker, Daniel Gray, 2014-09-09 The second edition of the Historical Dictionary of Marxism covers the basics of Karl Marx's thought the philosophical contributions of later Marxist theorists and the extensive real world political organizations and structures his work inspired that is the myriad political parties organizations countries and leaders who subscribed to Marxism as a creed This text includes a chronology an introductory essay and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities both thinkers and doers political parties and movements and major communist or ex communist countries This book is an excellent access point for students researchers and anyone wanting to know more about Marxism *Intellectual Foundations of the Nicaraguan Revolution* Donald C. Hodges, 2014-02-04 In this critical study of the thought of Augusto Cesar Sandino and his followers Donald C Hodges has discovered a coherent ideological thread and political program which he succeeds in tracing to Mexican and Spanish sources Sandino's strong religious inclination in combination with his anarchosyndicalist political ideology established him as a religious seer and moral reformer as well as a political thinker and is the prototype of the curious blend of Marxism and Christianity of the late twentieth century Nicaraguan government the Frente Sandinista de Liberación Nacional *Sandino's Communism* Donald C. Hodges, 2014-02-01 Drawing on previously unknown or unassimilated sources Donald C Hodges here presents an entirely new interpretation of the politics and philosophy of Augusto C Sandino the

intellectual progenitor of Nicaragua's Sandinista revolution The first part of the book investigates the political sources of Sandino's thought in the works of Babeuf Buonarroti Blanqui Proudhon Bakunin Most Malatesta Kropotkin Ricardo Flores Magón and Lenin a mixed legacy of pre Marxist and non Marxist authoritarian and libertarian communists The second half of the study scrutinizes the philosophy of nature and history that Sandino made his own Hodges delves deeply into this philosophy as the supreme and final expression of Sandino's communism and traces its sources in the Gnostic and millenarian occult undergrounds This results in a rich study of the ways in which Sandino's revolutionary communism and communist spirituality intersect a spiritual politics that Hodges presents as more realistic than the communism of Karl Marx While accepting the current wisdom that Sandino was a Nicaraguan liberal and social reformer Hodges also makes a persuasive case that Sandino was first and foremost a communist although neither of the Marxist nor anarchist variety He argues that Sandino's eclectic communist spirituality was more of an asset than a liability for understanding the human condition and that his spiritual politics promises to be more relevant than Marxism Leninism for the twenty first century Indeed Hodges believes that Sandino's holistic communism embraces both deep ecology and feminist spirituality a finding that is sure to generate lively and productive debate

Liss, 2019-04-08 The author of this book takes a highly original approach to understanding the past three decades of Cuban history he offers an analysis and interpretation of the prolific writings and speeches of Fidel Castro and of numerous interviews with him Through Castro's own words Sheldon Liss examines the evolution of the Cuban leader's political and social

The Marxism of Che Guevara Michael Löwy, 2007 In this seminal exploration of Che Guevara's contributions to Marxist thinking Michael Löwy traces Che's ideas about Marxism both as they related to Latin America and to more general philosophical political and economic issues Now revised and updated this edition includes a chapter on Guevara's search for a new paradigm of socialism and a substantive essay by Peter McLaren on Che's continued relevance today Löwy portrays Guevara as a revolutionary humanist who considered all political questions from an internationalist viewpoint For him

revolutionary movements in Latin America were part of a world process of emancipation. Lewy considers especially Che's views on the contradiction between socialist planning and the law of value in the Cuban economy and his search for an alternative road to the actually existing socialism of the Stalinist and post-Stalinist Soviet bloc. Che's varied occupations—doctor and economist, revolutionary and banker, agitator and ambassador, industrial organizer and guerrilla fighter—were expressions of a deep commitment to social change. This book eloquently captures his views on humanity, his contributions to the theory of revolutionary warfare, and his ideas about society's transition to socialism, offering a cohesive, nuanced introduction to the range of Guevara's thought.
