Yeniseian Peoples and Languages Edward J. Vajda,2013-07-04 The Kets of Central Siberia are perhaps the most enigmatic of Siberia s aboriginal tribes Today numbering barely 1 100 souls living in several small villages on the middle reaches of the Yenisei the Kets have retained much of their ancient culture as well as their unique language Genetic studies of the Ket hint at an ancient affinity with Tibetans Burmese and other peoples of peoples of South East Asia not shared by any other Siberian people The Ket language which is unrelated to any other living Siberian tongue also appears to be a relic of a bygone linguistic landscape of Inner Asia Because language isolates such as Ket are of special value to scholars of the original peopling of the continents linguists have recently attempted to link Ket with North Caucasian Sino Tibetan Burushaski Basque and Na Dene None of these links have been proved to the satisfaction of all linguists and the research continues both in Russia and abroad
