The Meaning Of Pagan Creeds:

Pagan And Christian Creeds, Their Origin And Meaning Edward Carpenter, 2024-03-18 This book provides a systematic and logical approach to the origins of religion. Many common themes are shown to exist between Christianity and earlier Pagan religions that go back in time centuries before Christianity itself. Carpenter makes an effort to get to the very roots of religion in this book. He is trying to uncover where our religious concepts first originated and reveals an evolutionary sequence which starts with phallic and procreative cults as having the earliest known impact. Following this came a cult of magic much along the lines of Frazer's *The Golden Bough* where spirits and earth divinities were worshipped. Lastly came the belief in actual God figures that came down from heaven. A big part of early religion also concerns the consciousness.

Pagan & Christian Creeds Edward Carpenter, 2005-12-01 The main Christian doctrines and festivals besides a great mass of affiliated legend and ceremonial are really quite directly derived from and related to preceding Nature worships and it has only been by a good deal of deliberate mystification and falsification that this derivation has been kept out of sight from Solar Myths and Christian Festivals. Socialist advocate, progressive educator and amateur mystic Edward Carpenter is perhaps best remembered today for his conflicted homosexuality, an attitude that infuses even this 1920 US work of comparative mythology which seeks to rehabilitate the sexual longings and sensual traditions of pagan mythologies and how they influenced Christian theology. In this examination of the ancient roots of modern religion, Carpenter explores the concepts of ritual dancing, sex taboos, rites of initiation, magic associated with food and vegetation, and much more. Singing with secrets and mysteries, this is a timeless work of the numinous that will delight anyone who seeks a connection with the past and with the corporeal and carnal foundations of human spirituality. British activist and writer EDWARD CARPENTER (1844-1929) produced books and pamphlets on a wide variety of subjects; his works include *Prisons, Police and Punishment* (1905) and *The Religious Influence of Art* (1870). He is best known for his epic poem cycle *Towards Democracy* (1883).

Pagan & christian Creeds Edward Carpenter, 1921 **Pagan and Christian Creeds** Edward Carpenter, 2018-12-18 The subject of Religious Origins is a fascinating one as the great multitude of books upon it published in late years tends to show. Indeed the great difficulty today in dealing with the subject lies in the very mass of the material to hand and that not only on account of the labor involved in sorting the material but because the abundance itself of facts opens up temptation to a student in this department of Anthropology as happens also in other branches of general Science to rush in too hastily with what seems a plausible theory. The more facts, statistics and so forth there are available in any investigation the easier it is to pick out a considerable number which will fit a given theory. The other facts being neglected or ignored the views put forward enjoy for a time a great vogue. Then inevitably and at a later time new or neglected facts alter the outlook and a new perspective is established. There is also in these matters of Science though many scientific men would doubtless deny this a great deal of Fashion. Such has been notoriously the case in Political Economy, Medicine, Geology and even in such definite studies as

Physics and Chemistry In a comparatively recent science like that with which we are now concerned one would naturally expect variations A hundred and fifty years ago and since the time of Rousseau the Noble Savage was extremely popular and he lingers still in the story books of our children Then the reaction from this extreme view set in and of late years it has been the popular cue largely it must be said among armchair travelers and explorers to represent the religious rites and customs of primitive folk as a senseless mass of superstitions and the early man as quite devoid of decent feeling and intelligence Again when the study of religious origins first began in modern times to be seriously taken up say in the earlier part of last century there was a great boom in Sungods Every divinity in the Pantheon was an impersonation of the Sun unless indeed if feminine of the Moon

Pagan and Christian Creeds Edward Carpenter,2020-03-29 Meanwhile the Christian Church from these speculations has kept itself severely apart as of course representing a unique and divine revelation little concerned or interested in such heathenisms and moreover in this country at any rate has managed to persuade the general public of its own divine uniqueness to such a degree that few people even nowadays realize that it has sprung from just the same root as Paganism and that it shares by far the most part of its doctrines and rites with the latter Till quite lately it was thought in Britain that only secularists and unfashionable people took any interest in sungods and while it was true that learned professors might point to a belief in Magic as one of the first sources of Religion it was easy in reply to say that this obviously had nothing to do with Christianity The Secularists too rather spoilt their case by assuming in their wrath against the Church that all priests since the beginning of the world have been frauds and charlatans and that all the rites of religion were merely devil s devices invented by them for the purpose of preying upon the superstitions of the ignorant to their own enrichment They the Secularists overleaped themselves by grossly exaggerating a thing that no doubt is partially true Thus the subject of religious origins is somewhat complex and yields many aspects for consideration It is only I think by keeping a broad course and admitting contributions to the truth from various sides that valuable results can be obtained It is absurd to suppose that in this or any other science neat systems can be found which will cover all the facts Nature and History do not deal in such things or supply them for a sop to Man s vanity

Pagan and Christian Creeds Edward Carpenter,2020-03-29 Meanwhile the Christian Church from these speculations has kept itself severely apart as of course representing a unique and divine revelation little concerned or interested in such heathenisms and moreover in this country at any rate has managed to persuade the general public of its own divine uniqueness to such a degree that few people even nowadays realize that it has sprung from just the same root as Paganism and that it shares by far the most part of its doctrines and rites with the latter Till quite lately it was thought in

Britain that only secularists and unfashionable people took any interest in sun-gods and while it was true that learned professors might point to a belief in Magic as one of the first sources of Religion it was easy in reply to say that this obviously had nothing to do with Christianity. The Secularists too rather spoiled their case by assuming in their wrath against the Church that all priests since the beginning of the world have been frauds and charlatans and that all the rites of religion were merely devil's devices invented by them for the purpose of preying upon the superstitions of the ignorant to their own enrichment. They the Secularists overleaped themselves by grossly exaggerating a thing that no doubt is partially true. Thus the subject of religious origins is somewhat complex and yields many aspects for consideration. It is only I think by keeping a broad course and admitting contributions to the truth from various sides that valuable results can be obtained. It is absurd to suppose that in this or any other science neat systems can be found which will cover all the facts. Nature and History do not deal in such things or supply them for a sop to Man's vanity.
