The Memory Of Judgment Making Law And History In The Trials Of The Holocaust

A Gutmann

The Memory Of Judgment Making Law And History In The Trials Of The Holocaust:

The Memory of Judgment Lawrence Douglas, 2001-01-01 This is an examination of the law's response to the crimes of the Holocaust. It studies exemplary proceedings including the Nuremberg trial of the major Nazi war criminals and the Israeli trials of Adolf Eichmann and John Demjanjuk.

Communities of Memory William James Booth, 2018-07-05 Memory has fueled merciless violent strife and it has been at the core of reconciliation and reconstruction. It has been used to justify great crimes and yet it is central to the pursuit of justice. In these and more everyday ways we live surrounded by memory: individual and social in our habits, our names, the places where we live, street names, libraries, archives, and our citizenship institutions and laws. Still we wonder what to make of memory and its gifts, though sometimes we are hardly even certain that they are gifts. Of the many chambers in this vast palace I mean to ask, particularly after the place of memory in politics, in the identity of political communities and in their practices of doing justice.

From the Preface W. James Booth seeks to understand the place of memory in the identity, ethics, and practices of justice of political communities. Identity, he believes, is a particular kind of continuity across time, one central to the possibility of agency and responsibility, and memory plays a central role in grounding that continuity. Memory identity takes two forms: a habitlike form, the deep presence of the past that is part of a life led in common, and a more fragile, vulnerable form in which memory struggles to preserve identity through time, notably in bearing witness, a form of memory work deeply bound up with the identity of political communities. Booth argues that memory holds a defining place in determining how justice is administered. Memory is tied to the very possibility of an ethical community, one responsible for its own past, able to make commitments for the future and driven to seek justice. Underneath and motivating the politics of memory understood as contests over the writing of history, over memorials, museums, and canons, he writes, there lies an intertwining of memory, identity, and justice.

Communities of Memory both argues for and maps out that intertwining.

Oxford Handbook of Transitional Justice, 2025-08-15 The Oxford Handbook of Transitional Justice is an authoritative guide to the rapidly growing domain of transitional justice, the practices and processes of reckoning pursued in the aftermath of historic injustice. Since the neologism's coining in the late 1990s, transitional justice has become one of the 21st century's most influential practices of international humanitarianism. However, transitional justice projects often conceal the very violence they are intended to address or even inflict further violence on victims of atrocities. Across 48 genre-bending chapters, the Handbook explores, articulates, and advances a multifaceted critique of transitional justice. Ranging innovatively across space and time, it interrogates the nature and legacies of the justice cascade that the prosecution of international crimes is said to have inspired. An interdisciplinary cast of leading scholars questions the meaning and efficacy of transitional justice's modalities, which range from archives to courts, from memorials to reparations. In so doing, this volume's authors critically challenge the panglossian orthodoxies that have accumulated and ossified around efforts to come to terms with violent pasts, from colonialism to genocide. This global endeavor is not one of tear down, however. Rather, it

points toward a reimagined project that is more clear eyed about the promises of transitional justice and its inherent limits A definitive work on the subject The Oxford Handbook of Transitional Justice is essential reading for students scholars and practitioners interested in practices of reckoning [A Global History of Execution and the Criminal Corpse](#) Richard Ward,2015-09-27 Through studies of beheaded Irish traitors smugglers hung in chains on the English coast suicides subjected to the surgeon s knife in Dresden and the burial of executed Nazi war criminals this volume provides a fresh perspective on the history of capital punishment The chapters Introduction A Global History of Execution and the Criminal Corpse and The Gibbet in the Landscape Locating the Criminal Corpse in Mid Eighteenth Century England are open access under a CC BY 4 0 license **Memory Laws, Memory Wars** Nikolay Koposov,2018 A major contribution to our understanding of present day historical consciousness through a study of memory laws across Europe **Eichmann Trial Reconsidered** Rebecca Wittmann,2021-10-25 The Eichmann Trial Reconsidered explores the legacy and consequences of the trial of Adolf Eichmann **The Collective Memory Reader** Jeffrey K. The Milošević Trial Timothy William Waters, 2015 The international trial of Slobodan Milosevic who presided over the violent collapse of Yugoslavia was already among the longest war crimes trials when Milosevic died in 2006 Yet precisely because it ended without judgment its significance and legacy are specially contested The contributors to this volume including trial participants area specialists and international law scholars bring a variety of perspectives as they examine the meaning of the trial s termination and its implications for post conflict justice The book s approach is intensively cross disciplinary weighing the implications for law politics and society that modern war crimes trials create
