The Middle East Nations Superpowers And Wars:

The Middle East: Nations, Superpowers, and Wars Yair Evron,1973 The Middle East: Nations, Superpowers, and Wars Yair Evron,1973 *Superpower Involvement In The Middle East* Paul Marantz,Blema Steinberg,John Sigler,Shmuel Sandler,2019-06-18 The contributors to this book offer an explanation of Soviet and U S policy in the Middle East by exploring how the superpowers define their goals in the region the factors that both stimulate and constrain the United States and the Soviet Union in the implementation of their objectives and how their mutual perceptions influence behavior

The ch **Superpower Intervention in the Middle East (Routledge Revivals)** Peter Mangold,2013-10-14 Strategically placed on the global chess board as well as controlling vast oil resources the Middle East was one of the main theatres of Cold War In the 1950s the Soviet Union had taken advantage of Arab Nationalists disillusion with British and French Imperialism along with the emerging Arab Israeli conflict to establish relations with Egypt Syria and Iraq The United States responded by moving in to shore up the Western position Confrontation was inevitable Superpower Intervention in the Middle East was written in 1978 when this confrontation was at its height The book s main theme focuses on how the superpowers became competitively involved in local Middle East conflicts over which they could exercise only limited control and the risks of nuclear confrontation of the kind which occurred at the end of the 1973 Arab Israeli war The threat to Western oil supplies is also examined This is a fascinating work of great relevance to scholars and students of Middle Eastern history and political diplomacy as well as those with an interest in the relationship between the Western superpowers and this volatile region *Israel, the Superpowers, and the War in the Middle East* Yaacov Bar-Siman-Tov,1987 The Middle East ,1973 **Conflict and War in the Middle East** Bassam Tibi,1998-09-28 Few studies of Middle East wars go beyond a narrative of events and most tend to impose on this subject the rigid scheme of superpower competition The Gulf War of 1991 however challenges this view of the Middle East as an extension of the global conflict The failure of the accord of both superpowers to avoid war even once regional superpower competition in the Middle East had ceased must give rise to the question Do regional conflicts have their own dynamic Working from this assumption the book examines local regional constraints of Middle East conflict and how through escalation and the involvement of extra regional powers such conflicts acquire an international dimension The theory of a regional subsystem is employed as a framework for conceptualising this interplay between regional and international factors in Tibi s examination of the Middle East wars in the period 1967 91 Tibi also provides an outlook into the future of conflict in the Middle East in the aftermath of the most recent Gulf War ,

The Arab-Israeli Conflict Kirsten E. Schulze,2016-11-03 3 From the Hussein McMahon Correspondence **The Quest for Hegemony in the Arab World** Podeh,2022-02-22 The struggle between Egypt and Iraq over Arab hegemony constitutes the main theme of this study Focussing on the struggle over Middle Eastern defense between 1945 58 and culminating in the conflict over the Baghdad Pact 1955 58 it sheds new light on Arab politics during the period under review This research

concentrates predominantly on the regional actors. The underlying assumption is that policies were not necessarily formulated in Washington and London and that often enough major decisions taken in Ankara, Cairo, Baghdad, Damascus, Amman and other Arab capitals affected decision makers in Western capitals. The Quest for Hegemony in the Arab World is based on newly released British, American and Israeli documents as well as on all available Arab sources. The study's value rests upon its discussion of the Baghdad Pact, a significant event which was hitherto neglected yet marked a watershed in modern Arab history. This study's approach offers an analytical framework with which the present struggle for hegemony in the Arab world may be examined.
