Euwe,1965 [The Middle Game in Chess by Euwe Book 2](#) Max Euwe,Haije Kramer,2013-01-01 In Book I of their authoritative study Dr Max Euwe and Mr H Kramer examined the static or positional features of the middle game In the companion volume they turn to its dynamic and subjective features While the potentialities of a given position its dangers as well as its opportunities can be assessed the manner in which they are handled varies widely according to the intellect and temperament of the player Indeed there is no single road to success In this Book II the authors examine the initiative the different types of attack on the king the arts of defense maneuver and liquidation and the common failings over the chessboard to which even great players are occasionally subject Their theme is lavishly illustrated by master games The final part of the book is devoted to a survey of the personal styles of thirty eight grandmasters and World Champions from Anderssen to Petrosian from Morphy to Tal and Fischer In this volume the former World Champion and his collaborator complete their study of middle game theory It is a classic unlikely to be superseded and an essential addition to the library of every serious student of chess From a review of Book I by W A Fairhurst in the Glasgow Herald It is difficult to do justice to such a large and important book in a brief review but I must state at once that all serious students should possess it The former world champion conceived the work during the Second World War and one is not surprised to learn that its writing took years of intensive study Volume II dealing with the dynamic elements will be eagerly awaited **The British Chess Magazine** ,1981 *The Oxford Magazine* ,1966 *Chess* ,1965 **The Publishers' Trade List Annual** ,1978 **The Publishers Weekly** ,1966
