the Middle Passage Jane Webster, 2023-10-31 An estimated 27 million Africans made an enforced crossing of the Atlantic on British slave ships between c 1680 and 1807 a journey that has become known as the Middle Passage This book focuses on the slave ship itself The slave ship is the largest artefact of the Transatlantic slave trade but because so few examples of wrecked slaving vessels have been located at sea it is rarely studied by archaeologists Materializing the Middle Passage A Historical Archaeology of British Slave Shipping 1680 1807 argues that there are other ways for archaeologists to materialize the slave ship It employs a pioneering interdisciplinary methodology combining primary documentary sources maritime and terrestrial archaeology paintings maritime and ethnographic museum collections and many other sources to rebuild British slaving vessels and to identify changes to them over time The book then goes on to consider the reception of the slave ship and its trade goods in coastal West Africa and details the range and uses of the many African resources including ivory gold and live animals entering Britain on returning slave ships The third section of the book focuses on the Middle Passage experiences of both captives and crews and argues that greater attention needs to be paid to the coping mechanisms through which Africans survived yet also challenged their captive passage Finally Jane Webster asks why the African Middle Passage experience remains so elusive even after decades of scholarship dedicated to uncovering it She considers when how and why the crossing was remembered by saltwater captives in the Caribbean and North America The marriage of words and things attempted in this richly illustrated book is underpinned throughout by a theoretical perspective combining creolization and postcolonial theory and by a central focus on the materiality of the slave ship and its regimes Into the Ice Mark

Synnott, 2025-04-15 New York Times bestselling author Mark Synnott has climbed with Alex Honnold He s scaled Mount Everest He s pioneered big wall first ascents including the north west face of the mile high Great Trango Tower and skied monster first descents But in 2022 he realized there was a dream he d yet to achieve to sail the Northwest Passage in his own boat a feat only four hundred or so sailors have ever accomplished and in doing so try to solve the mystery of what happened to legendary nineteenth century explorer Sir John Franklin and his ships HMS Erebus and Terror Only a few hundred vessels have ever transited the Northwest Passage and substantially fewer have done so in a fiberglass hulled boat like Polar Sun But Mark was determined to return to the Arctic where he cut his teeth as a young climber and in the process investigate one of the great mysteries of exploration What really happened to Sir John Franklin and his entire 128 man crew which disappeared into these ice strewn waters 175 years ago In this pulse pounding travelogue Mark Synnott paints a vivid portrait of the Arctic which is currently warming twice as fast as any other part of our planet He weaves its history and people into the first person account of his epic journey through the Northwest Passage searching for Franklin s tomb along the way all while trying to avoid a similar fate In Into the Ice Mark and his crew race against time and treacherous storms in search of answers to the greatest mystery of all time What is it that drives someone to risk it all in the name of exploration
