Indian Philosophy and Religion Dr. Ravi Prakash 'Baboo', 2021-09-11 In ancient Indian philosophy philosophy and religion cannot be separated primarily because of the cultural integration of religious practices and mystical pursuits For example ceremonies celebrating birth marriage and death performed with recitations of Vedic verses mantras were important for bonding within ancient Indian societies Later different social practices developed Thus the orthodox classical schools of thought are distinguished from nonorthodox classical schools by their allegiance to established forms of social practice rather than to the doctrines of the Veda Buddhism for example constitutes much more of a break with Vedic practices than with the ideas developed in Vedic traditions of thought In fact the Upanishads mystical treatises continuous with the Vedas foretell many Buddhist teachings In ancient India religion did not entail dogma but rather a way of life that permitted a wide range of philosophic positions and inquiry Mysticism the claim that ultimate truth is only obtainable through spiritual experience dominates much ancient Indian philosophy This book has been intended as a manual for students of this subject Contents Truth and Validity Laws of Thought Truth Functions and Propositional Logic Hinduism Buddhism Jainism Sikhism

Practicing the Great Perfection Shechen Gyaltsap IV, 2020-06-02. A collection of essential instructions on the practice of Dzogchen or The Great Perfection from one of the great early 20th century Buddhist masters. Shechen Gyaltsap (1871-1926) was widely recognized as one of the greatest meditation masters and most compassionate bodhisattvas in the history of Tibetan Buddhism. He lived a life of complete devotion and commitment to monastic discipline and study and became the root teacher of Dilgo Khyentse Rinpoche, who said of Shechen Gyaltsap's teachings that they were worth more than all the gold in the entire world. This collection, intended for the advanced Buddhist practitioner who has received initiation from a qualified master, provides the essential instructions of Dzogchen or Great Perfection practice. Written with a clear simplicity that belies their profundity, the teachings give practical and pointed advice on how students should meditate and behave in ordinary life. The work begins with an extensive reflection on the problem of self-clinging and the analytical meditation designed to uproot it and proceeds to more specific instructions for the mind practice itself.
