The Portuguese Fragment:

The Portuguese Fragment Owen Sela, 1975 **Computational Processing of the Portuguese Language** António Branco, Aldebaro Klautau, Renata Vieira, Vera Lúcia Strube de Lima, 2010-04-01 The International Conference on Computational Processing of Portuguese PROPOR is the main event in the area of natural language processing that is focused on Portuguese and the theoretical and technological issues related to this language. It welcomes contributions for both written and spoken language processing. The event is hosted in Brazil and in Portugal. The meetings have been held in Lisbon Portugal 1993 Curitiba Brazil 1996 Porto Alegre Brazil 1998 Vila Real Portugal 1999 Atibaia Brazil 2000 Faro Portugal 2003 Itatiaia Brazil 2006 and Aveiro Portugal 2008. This meeting has been a highly productive forum for the progress of this area and to foster the cooperation among the researchers working on the automated processing of the Portuguese language. PROPOR brings together research groups promoting the development of methodologies, resources and projects that can be shared among all researchers and practitioners in the field. The ninth edition of this event was held in Porto Alegre Brazil at Pontifícia Universidade Católica do Rio Grande do Sul PUCRS. It had two main tracks: one for language processing and another one for speech processing. This event hosted a special Demonstration Session and the first edition of the PhD and MSc Dissertation Contest which aimed at recognizing the best academic work on processing of the Portuguese language in the last few years. This edition of the event featured tutorials on statistical machine translation and on speech recognition as well as invited talks by renowned researchers of natural language processing. The Portuguese Language Continuum in Africa and Brazil Laura Álvarez López, Perpétua Gonçalves, Juanito Ornelas de Avelar, 2018-11-22 The Portuguese Language Continuum in Africa and Brazil is the first publication in English to offer studies on a whole set of varieties of Portuguese in Africa as well as Brazilian Portuguese. Authored by specialists on varieties of Portuguese in Africa and Brazil, the eleven chapters and the epilogue promote a dialogue between researchers interested in their genesis, sociohistories and linguistic properties. Most chapters directly address the idea of a continuum of Portuguese derived from parallel sociohistorical and linguistic factors in Africa and Brazil due to the colonial expansion of the language to new multilingual settings. The volume contributes to the understanding of structural properties that are often shared by several varieties in this continuum and describes the various situations and domains of language use as well as sociocultural contexts where they have emerged and where they are being used. To rectify this misconception, this book argues that Latin America was in the vanguard of progress and modernity. It examines antagonisms between Spain and Portugal and each country's expansion in the 1700s, relations between the Spanish and Portuguese Indians, rivalry with other foreign empires, the Encomienda, the

Historical Fragments of the Mogul Empire, of the Morattoes, and of the English Concerns in Indostan from the Year 1659 ... Robert Orme (Historian.),1805 Cultures of the Fragment Heather Bamford,2018-06-26 The majority of medieval and sixteenth century Iberian manuscripts whether in Latin Hebrew Arabic Spanish or Aljamiado Spanish written in Arabic script contain fragments or are fragments The term fragment is used to describe not only isolated bits of manuscript material with a damaged appearance but also any piece of a larger text that was intended to be a fragment Investigating the vital role these fragments played in medieval and early modern Iberian manuscript culture Heather Bamford s Cultures of the Fragment is focused on fragments from five major Iberian literary traditions including Hispano Arabic and Hispano Hebrew poetry Latin and Castilian epics chivalric romances and the literature of early modern crypto Muslims The author argues that while some manuscript fragments came about by accident many were actually created on purpose and used in a number of ways from binding materials to anthology excerpts and some fragments were even incorporated into sacred objects as messages of good luck Examining four main motifs of fragmentation including intention physical appearance metonymy and performance this work reveals the centrality of the fragment to manuscript studies highlighting the significance of the fragment to Iberia s multicultural and multilingual manuscript culture **Fragments of Voyages and Travels** Basil Hall,1840
