The Postmodern A Siege Of The Citadel Of Reason:

Faith and Reason Today Varghese J. Manimala, 2008 Pluralism of Pluralism Association of Christian Philosophers of India. Meeting, 2006 With special reference to India **An Architecture Manifesto** Nadir Lahiji, 2019-02-06 In this manifesto the author takes a leap of faith It is a faith in Lost Causes He asserts that today architectonic reason has fallen into ruins As soon as architecture leaves the limits set to it by architectonic reason no other path is open to it but the path to aestheticism This is the wrong path contemporary architecture has taken In its reduction to a pure aesthetic object architecture negatively affects the human sensorium Capitalist consumer society creates desires by generating surplus enjoyment for capitalist profit and contemporary architecture has become an instrument in generating this surplus enjoyment with fatal consequences This manifesto is thus both a critique and a work of theory It is a siren alarm klaxon to the current status quo within architectural discourse and a timely response to the conditions of architecture today

Redefining Reason Bradley W. Patterson, 2011-01-11 Throughout the twentieth century Western thinkers engaged in a politically charged often highly personal and acrimonious debate over the mental and rational capacity of people from traditional non literate societies At issue was the question of whether or not humanity was at bottom psychologically and rationally unified and equal as a species Redefining Reason offers the first in depth critical history of that debate and its repercussions in modern Western thought and society This debate of course is as old as humanity itself and one that was never formally announced coordinated or neatly staged In tracing it through the twentieth century this book focuses on what was the most thoughtful interesting and cogent phase of an ancient controversy in the Western world This book is called the story of a primitive mentality rationality debate because that is what it was called most commonly by those who participated in it While as readers will see there was nothing uniquely primitive about the mentality of people from traditional oral societies to deprive the twentieth century debate of its own terms and questions would be to lose sight of what it was Divided into three sections this book first sets the twentieth century primitive mentality debate within its historical context so that it may be better understood It then focuses on some of the highlights of the debate The next section suggests that this debate was in reality itself but a chapter in or aspect of a much larger story the story of what may be appropriately referred to as the hyper-rationalization of human society To conclude this book follows the debate into the twenty first century and offers the clarification and resolutions developed in earlier chapters to contemporary students scholars and educated lay readers

The Voice of Public Theology Ted Peters, 2022-11-07 Public theologians are already thundering like prophets at climate change and racial injustice But the gale force winds of natural science blow through society as well The public theologian should be on storm watch **Understanding Pat Conroy** Catherine Seltzer, 2015-04-15 An insightful look at the life and work of the extraordinary popular Southern writer Pat Conroy's novels and memoirs have indelibly shaped the image of the South in the American imagination His writing has rendered the physical landscape of the South Carolina lowcountry

familiar to legions of readers and has staked out a more complex geography as well one defined by domestic trauma racial anxiety religious uncertainty and cultural ambivalence In *Understanding Pat Conroy* Catherine Seltzer engages in a sustained consideration of Conroy and his work The study begins with a sketch of Conroy's biography which while fascinating in its own right is employed here to illuminate many of the motifs and characters that define his work and to locate him within southern literary tradition Seltzer then explores each of Conroy's major works tracing the evolution of the themes within and among each of his novels including *The Great Santini* *The Lords of Discipline* *The Prince of Tides* *Beach Music* and *South of Broad* and his memoirs among them *The Water Is Wide* and *My Losing Season* Seltzer's insightful close readings of Conroy's work are supplemented by interviews and archival material shedding new light on the often complex dynamics between text and context in Conroy's oeuvre More broadly *Understanding Pat Conroy* explores the ways that Conroy delights in troubling the boundaries that circumscribe the literary establishment and links his work to existing debates about the contemporary American canon

Critical Legal Thought Christian Joerges, David M. Trubek, 1989 **Jean-Jacques Rousseau and the Sources of the Self** Timothy O'Hagan, 1997 This text examines Rousseau's powerful critique of the idea that the self is a transparent self evident given In all Rousseau's writings the self plays a central explanatory role but that role is always problematic always in question Rousseau kept his distance from his rationalistic predecessors and his materialistic contemporaries and in that distance we encounter intimations of the post modern However Rousseau is still a realist who criticizes the pretensions of scientists not science itself and in doing so offered the profoundest critique of the illustrations of his own age The essays in this volume suggest that we have not yet exhausted the critical riches of his work
