The Women Who Invented

Twentieth-Century Children's Literature Elizabeth West,2022-10-24 Publishing for children between 1930 and 1960 has been denigrated as a relatively fallow period for creativity and quality certainly in comparison with the golden ages of children's literature that preceded and succeeded it This book questions this perception by using archival evidence to argue that the work of what was predominantly a female group of editors illustrators authors and librarians collectively referred to as bookwomen resulted in many titles which are still considered as classics today The bookwomen reframed ideas about how children's publishing should be approached and valued and in doing so laid the foundations for a subsequent generation of children's authors and publishers who were to achieve far greater prominence The key to the success of the bookwomen was their willingness to experiment the strength of their relationships and their comprehensive understanding of the book production process By focusing on a selection of women working across all aspects of the book production process this book demonstrates that both individually and collectively women capitalised on their position as other to the existing male institutions

Hogarth's Harlot Ronald Paulson,2003-12-03 In 1732 a blasphemous burlesque of the Christian Atonement was published in England without comment from the government or Church of England The author explains this absence of censure through a detailed examination of the parameters of blasphemy in 18th century England
