Art by the Book J. P. Park, 2016-06-01 Sometime before 1579 Zhou Lujing a professional writer living in a bustling commercial town in southeastern China published a series of lavishly illustrated books which constituted the first multigenre painting manuals in Chinese history Their popularity was immediate and their contents and format were widely reprinted and disseminated in a number of contemporary publications Focusing on Zhou's work *Art by the Book* describes how such publications accommodated the cultural taste and demands of the general public and shows how painting manuals functioned as a form in which everything from icons of popular culture to graphic or literary cliché was presented to both gratify and shape the sensibilities of a growing reading public As a special commodity of early modern China when cultural standing was measured by a person's command of literati taste and lore painting manuals provided nonelite readers with a device for enhancing social capital *The Art of Modern China* Julia F. Andrews, Kuiyi Shen, 2012-09-24 In the early twenty-first century China occupies a place on center stage in the international art world But what does it mean to be a Chinese artist in the modern age This first comprehensive study of modern Chinese art history traces its evolution chronologically and thematically from the Age of Imperialism to the present day Julia Andrews and Kuiyi Shen pay particular attention to the dynamic tension between modernity and tradition as well as the interplay of global cosmopolitanism and cultural nationalism This lively accessible and beautifully illustrated text will serve and enlighten scholars students collectors and anyone with an interest in Asian art and artists *The Arts of China* Michael Sullivan, 1984-01-01 this book presents a fascinating and

balanced picture of Chinese art from the Stone Age to the present day The author concerns himself not only with art but also with Chinese philosophy religion and the realm of ideas *Emperor Huizong* Patricia Buckley Ebrey, 2014-01-06 The first comprehensive English language biography of Emperor Huizong corrects the prevailing view of this ruler as a decadent political failure who lost the throne to invaders Ebrey recasts the artistically gifted emperor as passionate and paradoxical yet genuinely ambitious if too much so in pursuing glory for his flourishing realm **Art and Artists of**

Twentieth-Century China Michael Sullivan, 2023-12-22 This visually stunning book focuses on the rebirth of Chinese art in the twentieth century under the influence of Western art and culture Michael Sullivan recognized throughout the world as a leading scholar of Chinese art vividly documents the conflicting pulls of traditional and Western values on Chinese art and provides 364 illustrations in color and black and white to show the great range of artistic expression and the historical processes that occurred within various movements A substantial biographical index of twentieth century Chinese artists is a valuable addition to the text Sullivan discusses artists and their work against China's background of oppression and

relaxation despair and hope He expertly conveys the diverse and at times bizarre intertwining of Chinese cultural history and art during this century Included are the intense debates between traditionalists and reformers the creation of the first art schools and the birth of the idea shocking in ethnocentric China that art is a world language that obliterates all frontiers The scholarly traditions of classical Chinese painting the belated discovery of Western modernism the artistic upheaval under Communism and China's rethinking of the very nature of art all have a place in Sullivan's fascinating history Michael Sullivan has known many of the major figures in China's modern art movement of the 1930s and 1940s and has also gained the confidence of younger artists who rose to prominence following the 1979 Peking Spring This long awaited book richly documented and abundantly illustrated is a capstone to Sullivan's work and will be enthusiastically welcomed by art lovers everywhere

The Odyssey of China's Imperial Art Treasures Jeannette Shambaugh Elliot, David

Shambaugh, 2015-08-03 中国书画, 1992 **The Painting of T'ang Yin** Anne De Coursey Clapp, 1991-11 This richly illustrated volume documents the art and fully examines the career of the sixteenth century Chinese master T'ang Yin One of the four great painters of the middle Ming period the ambitious T'ang Yin rose above the merchant class into which he was born to become a member of the elite scholarly circle in the city of Suchou Deprived by accident of his academic degrees and so forced to paint for a living T'ang Yin became a social anomaly whose style of life cut across the conventions of his time His experiences throw into sharp relief the realities faced by a Chinese painter who was both elite Confucian scholar and professional painter Anne De Coursey Clapp's work also explores larger issues of Ming painting raised by the artist's turbulent career She describes the social and intellectual values exalted in Ming Suchou its system of patronage the contrast between the professional and amateur artist and the formative influence of twelfth century Sung dynasty styles on Suchou painters Clapp shows how T'ang Yin's artistic inventions were made in the course of leading the revival of Sung dynasty styles in Suchou tracing T'ang Yin's early studies of ancient and contemporary masters she describes how he reworked an antique style converting it into a vehicle of expression that reached fruition in a long series of fresh and powerful paintings of landscapes and birds and flowers In the process she revises the distorted version of middle Ming painting written by later Chinese art theorists to justify their own social and artistic values noting especially the role of art patrons and their effect on artistic production Clapp analyzes the increasing currency of painting as a means of social exchange in ancient China In particular she identifies commemorative painting as a major genre of the later dynasties and explores the role it played in the oeuvres of professional masters with its humanistic implications for the Chinese view of the ideal scholarly man Her broad view of T'ang Yin's career shows him divided between the professional and amateur camps of his time in landscape and figural subjects he was aligned with the professionals in flower subjects with the amateurs Clapp argues that the uneven distribution of styles and genres between this master who was subject to the market and those who were independent of it suggests that T'ang Yin deliberately tried to expand the range of his paintings in order to appeal to buyers in the lower

educational and social strata Illustrated by some of T ang Yin s most celebrated paintings and by some which are published for the first time her work is of tremendous importance to art literary and cultural historians of Ming China In this important work Anne de Coursey Clapp has drawn a clear picture of T ang Yin s life patronage relationships and contribution to the history of Chinese painting In the person of T ang Yin she has chosen an ideal focus around which to examine some of the misleading stereotypes which have distorted our understanding of Chinese painting since the seventeenth century Marked by analytical clarity and scrupulous scholarship her work is a welcome addition to the few works in English on individual Chinese artists Louise Yuhas Occidental College
