The Baconian Heresy:

The Baconian Heresy, a Confutation J M (John Mackinnon) 18 Robertson, 2025-05-22 *The Baconian Heresy a Confutation* is a meticulous and thorough refutation of the Baconian theory of Shakespearean authorship penned by the esteemed John Mackinnon Robertson. In this work, Robertson systematically dismantles the arguments asserting that Francis Bacon was the true author of the works attributed to William Shakespeare. Robertson's scholarly rigor shines as he delves into the historical, literary, and textual evidence, debunking the claims made by Baconians. This book is not merely a rebuttal; it is an insightful exploration of the authorship debate, showcasing Robertson's deep understanding of Shakespearean literature and the historical context in which it was produced. For scholars, students, and anyone fascinated by the Shakespeare authorship question, *The Baconian Heresy a Confutation* remains a vital contribution, offering a clear and compelling perspective on one of literature's most enduring mysteries. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. The Baconian Heresy John Mackinnon Robertson, 1913 **Mr. Nicholas Wake-Spear on "The Baconian Heresy."** Colomb (Colonel, George Hatton), 1909 *The Baconian Heresy* J. M. Robertson, 2015-07-01

Excerpt from *The Baconian Heresy A Confutation*: This treatise was in large part compiled some years ago under the shock of the revelation that Mark Twain had died a Bacon-Shakespearean. Laid aside under a misgiving that the drudgery it involved had not been worth while, it has been finished by way of a holiday task at the instance of a friend somewhat disturbed by Baconian solicitings. It is finally published with a hope not merely of checking in some degree the spread of the Baconian fantasy, but of stimulating to some small extent the revival of scientific Shakespearean criticism. Any close reader of the Baconian literature will recognise that its doctrine flourishes mainly on the unsunned sides of the Shakespeare problem. If only the specialists had done their proper work of discriminating between the genuine and the alien in the Shakespeare plays, much of the Baconian polemic would have been impossible if indeed it could have proceeded at all. What we latterly get from the professed historians of English literature is mostly cathedral declamation, somewhat analogous to much of the Baconian asseveration. It has been a question for me how far the confutation of Baconian fallacies may usefully be carried. About the
