evaluate statements in the Talmud and other rabbinic writings and we are better able to contextualize them not only in Greco Roman antiquity but also in the Sasanian environment in which the Babylonian Talmud was formed Historical Dictionary of Judaism Fourth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 800 cross referenced entries on on important personalities in Jewish religious history including biblical personalities with an emphasis on how they are understood in Jewish Christian and Islamic tradition This book is an excellent access point for students researchers and anyone wanting to know more about Judaism
