peerless beauty that he had provoked What's more he inadvertently discovered her boss's top secret *Translation*
Spain, 1899 *My Land, My Life* Siobhan McDonnell, 2023-10-31 Throughout Oceania land is central to identity because it is understood to be spiritually nourishing and sustaining Land is the mother Land and the kinship it nurtures is the basis for sustaining livelihoods and ways of life Therefore Indigenous dispossession from the land has deep and far reaching consequences *My Land My Life Dispossession at the Frontier of Desire* explores the land rush that took place in Vanuatu from 2001 to 2014 which resulted in over ten percent of all customary land being leased In this book Siobhan McDonnell offers new insights into the drivers of capitalist land transformations Using multi-scalar and multi-sited ethnography she describes not simply a linear march toward commodification of the landscape by foreign interests but a complex web replete with the local powerful Indigenous men involved in manipulating power and property McDonnell meticulously describes land leasing processes and maps the relationships between investors middlemen and local men She shows how property is a tool with which foreigners reassert capitalism and neocolonial control over Indigenous landscapes The legal identity of landowner contains foundational contradictions between the rights established in Vanuatu's *kastom* system and those afforded by property as individualized rights over land Property has also created sites for the production of masculine authority and enabled men to manipulate claims to land and entrench their personal power This book explores how transactions of customary land have created new domains of agency and frontiers of desire foreign desire to possess land and local desire to lease land for cash It concludes with a discussion of Vanuatu's constitutional and land reform package drafted by the author which took effect in 2014 and delivered a more empathetic approach to Indigenous land rights and ended the land rush Informed by decades of study legal work and community engagement *My Land My Life* demonstrates an engaged anthropological practice based on reciprocity that responds directly to what Indigenous people have asked for This book is certain to appeal to a wide range of scholars as well as policy makers

The Concept of Abuse in EU Competition Law
Pinar Akman, 2012-02-03 The objective's of Article 102 TFEU what exactly makes a practice abusive and the standard of harm under Article 102 TFEU have not yet been settled This lack of clarity creates uncertainty for businesses and coupled with the current state of economics in this area raises an important question of legitimacy Using law and economic approaches this book inquires into the possible objectives of Article 102 TFEU and proposes a modern approach to interpreting abuse In doing so this book establishes an overarching concept of abuse that conforms to the historical roots of the provision to the text of the provision itself and to modern economic thinking on unilateral conduct This book therefore inquires into what Article 102 TFEU is about what it can be about and what it should be about regarding both objectives and scope The book demonstrates that the separation of exploitative abuse from exclusionary abuse is artificial and unsound It examines the roots of Article 102 TFEU and the historical context of the adoption of the Treaty the case law policy and literature on exploitative abuses and where relevant on exclusionary abuses The book investigates potential objectives such

as fairness and welfare as well as the potential conflict between such objectives Finally it critically assesses the European Commission s modernisation of Article 102 TFEU before proposing a reformed approach to abuse which is centred on three necessary and sufficient conditions exploitation exclusion and a lack of an increase in efficiency

Performance-Driven Organizational Change Lex Donaldson,1998-10-27 In Performance Driven Organizational Change Lex Donaldson one of the leading scholars in the field of organizational theory introduces a thought provoking theory of performance driven organizational change He argues that recurrent crises of poor organizational performance are required to trigger adaptive organizational change in many aspects of the organization Moreover the adaptive change induced by each crisis creates the capacity for fresh organizational growth Hence through a series of adaptations and resulting growth spurts the organization grows larger and more effective He notes that while there has been much research into optimal management and human resource practices resulting in prescriptive advice that without performance crises there is a good chance that needed organizational change will not be forthcoming This book is highly recommended for advanced students researchers and scholars in the areas of organization theory organizational change strategy human resource management and economics
