The Pueblo Bonito Mounds of Chaco Canyon Patricia L. Crown, 2016-04-15 Chaco Canyon has one of the most significant concentrations of archaeological remains in North America Pueblo Bonito the largest and best known of Chaco's great houses was largely excavated in the late 1890s and early 1920s but then no extensive excavations were conducted at the site until a team of archaeologists from the University of New Mexico began work there in 2004 In exploring the possible evidence of water control features archaeologists recovered some 200 000 artifacts Here they use the artifacts and fauna they found to examine the lives and activities of the inhabitants of Pueblo Bonito as well as to further interpret current models of Chaco archaeology The contributors particularly focus on questions regarding crafts production long distance exchange

relationships and evidence for feasting and other ritual behavior The results from the 2004 2008 excavations challenge many interpretations related to the daily activities of the Pueblo Bonito population while supporting others

Vanished and Vanishing Parrots Joseph Forshaw,2017-10-02 Joseph M Forshaw one of the world s leading authorities on parrots calls attention to the threats they face they are one of the most endangered groups of birds with a growing number of species nearing extinction The main threats arise from habitat loss through deforestation and agricultural development and from the taking of birds for the international live bird trade Vanished and Vanishing Parrots brings together information on species that have become extinct in historical times with information on species that are in danger of becoming extinct to increase public awareness of the plight of these magnificent birds Vivid colour plates by the wildlife artist Frank Knight draw attention to the spectacular species that we have lost or that could be lost Forshaw s work gives us fascinating insight into these endangered and extinct parrots Vanished and Vanishing Parrots will be a valuable reference for scientific ornithological and avicultural organisations as well as individual lovers of birds and of illustrated natural history books

Connectivity in the Greater Southwest Karen Harry, Barbara J. Roth, 2019-03-21 This volume of proceedings from the fourteenth biennial Southwest Symposium explores different kinds of social interaction that occurred prehistorically across the Southwest. The authors use diverse and innovative approaches and a variety of different data sets to examine the economic, social, and ideological implications of the different forms of interaction, presenting new ways to examine how social interaction and connectivity influenced cultural developments in the Southwest. The book observes social interactions' role in the diffusion of ideas and material culture, the way different social units, especially households, interacted within and between communities, and the importance of interaction and interconnectivity in understanding the archaeology of the Southwest's northern periphery. Chapters demonstrate a movement away from strictly economic-driven models of social connectivity and interaction and illustrate that members of social groups lived in dynamic situations that did not always have clear-cut and unwavering boundaries. Social connectivity and interaction were often fluid, changing over time. Interaction and Connectivity in the Greater Southwest is an impressive collection of established and up-and-coming Southwestern archaeologists collaborating to strengthen the theoretical underpinnings of the discipline. It will be of interest to professional and academic archaeologists as well as researchers with interests in diffusion, identity, cultural transmission, borders, large-scale interaction, or social organization.
