material evidence and transcendent divinity commoditization and religious authority domestic relationships and global experience Hillary Kaell crafts the first in depth study of the cultural and religious significance of American Holy Land pilgrimage after 1948 The result sheds light on how Christian pilgrims especially women make sense of their experience in Israel Palestine offering an important complement to top down approaches in studies of Christian Zionism and foreign policy

Avrum Ehrlich, 2009-09-10 This book brings together a The Booklist ,1928 series of original essays which explore the dynamics at work in two of the oldest intact and starkly contrasting civilizations on earth The book studies how they interact in modernity and how each civilization views the other and analyses areas of cooperation between scholars activists and politicians Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress. Copyright Office, 1949 Republic of Drivers Cotten Seiler, 2009-05-15 Rising gas prices sprawl and congestion global warming even obesity driving is a factor in many of the most contentious issues of our time So how did we get here How did automobile use become so vital to the identity of Americans Republic of Drivers looks back at the period between 1895 and 1961 from the founding of the first automobile factory in America to the creation of the Interstate Highway System to find out how driving evolved into a crucial symbol of freedom and agency Cotten Seiler combs through a vast number of historical social scientific philosophical and literary sources to illustrate the importance of driving to modern American conceptions of the self and the social and political order He finds that as the figure of the driver blurred into the figure of the citizen automobility became a powerful resource for women African Americans and others seeking entry into the public sphere And yet he argues the individualistic but anonymous act of driving has also monopolized our thinking about freedom and democracy discouraging the crafting of a more sustainable way of life As our fantasies of the open road turn into fears of a looming energy crisis Seiler shows us just how we ended up a republic of drivers and where we might be headed Library of Congress Subject Headings Library of Congress.
