Boot and Shoe Recorder ,1909 **Expository Science: Forms and Functions of Popularisation** T. Shinn,Richard P. Whitley,2012-12-06 The prevailing view of scientific popularization both within academic circles and beyond affirms that its objectives and procedures are unrelated to tasks of cognitive development and that its pertinence is by and large restricted to the lay public Consistent with this view popularization is frequently portrayed as a logical and hence inescapable consequence of a culture dominated by science based products and procedures and by a scientistic ideology On another level it is depicted as a quasi political device for channeling the energies of the general public along predetermined paths examples of this are the nineteenth century Industrial Revolution and the U S Soviet space race Alternatively scientific popularization is described as a carefully contrived plan which enables scientists or their spokesmen to allege that scientific learning is equitably shared by scientists and non scientists alike This manoeuvre is intended to weaken the claims of anti scientific protesters that scientists monopolize knowledge as a means of sustaining their social privileges Popularization is also sometimes presented as a psychological crutch This in an era of increasing scientific specialisation permits the researchers involved to believe that by transcending the boundaries of their narrow fields their endeavours assume a degree of general cognitive importance and even extra scientific relevance Regardless of the particular thrust of these different analyses it is important to point out that all are predicated on the tacit presupposition that scientific popularization belongs essentially to the realm of non science or only concerns the periphery of scientific activity Concrete and Constructional Engineering ,1922 The Cement Age ,1907 Bon Courage! Richard Wiles,2014-06-01 Part practical tourist guide and part autobiography this record of a couple rebuilding their dream home in France is a tale of obstacles overcome and dreams fulfilled A dilapidated rat infested stone barn might not be many people s vision of a potential dream home But for English couple Richard and Al the cavernous oak beamed building in a sleepy hamlet in the Limousin region of France is perfect

Tussles with French bureaucracy and fierce storms do little to dampen their resolve as they immerse themselves in this quiet corner of France taking trips in Richard's balloon and starting their very own llama farm Told by a well intentioned if often hapless do it yourselfer Richard's hilarious and heartwarming tale of a new life in France resounds to the Gallic refrain Bon courage *Dictionary of Occupational Titles* ,1991 Supplement to 3d ed called Selected characteristics of occupations physical demands working conditions training time issued by Bureau of Employment Security
