A History of the Inquisition of Spain Henry Charles Lea, 1907 [The Inquisitor in the Hat Shop](#) Federico Barbierato, 2016-03-03 Early modern Venice was an exceptional city Located at the intersection of trade routes and cultural borders it teemed with visitors traders refugees and intellectuals It is perhaps unsurprising then that such a city should foster groups and individuals of unorthodox beliefs whose views and life styles would bring them into conflict with the secular and religious authorities Drawing on a vast store of primary sources particularly those of the Inquisition this book recreates the social fabric of Venice between 1640 and 1740 It brings back to life a wealth of minor figures who inhabited the city and fostered ideas of dissent unbelief and atheism in the teeth of the Counter Reformation The book vividly paints a scene filled with craftsmen friars and priests booksellers apothecaries and barbers bustling about the city spaces of sociability between coffee houses and workshops apothecaries and barbers shops from the pulpit and drawing rooms or simply publicly speaking about their ideas To give depth to the cases identified the author overlays a number of contextual themes such as the survival of Protestant or crypto Protestant doctrines the political situation at any given time and the networks of dissenting groups that flourished within the city such as the free metaphysicists who gathered in the premises of the hatter Bortolo Zorzi In so doing this rich and thought provoking book provides a systematic overview of how Venetian ecclesiastical institutions dealt with the sheer diffusion of heterodox and atheistical ideas at different social levels It will be of interest not only to scholars of Venice but all those with an interest in the intellectual cultural and religious history of early modern Europe **The Tax Inquisitor**

Salerni, 2015-01-27 The middle grade fantasy adventure continues in a sequel that does not disappoint an exciting blend of Arthurian legend and organized crime Kirkus After an all out battle in Mexico Jax Riley and Evangeline have gone into hiding There are still rogue Transitioners and evil Kin lords out to gain control over the Eighth Day And that means they're on the hunt for Riley a descendant of King Arthur and Evangeline a powerful wizard with bloodlines to Merlin So Jax is immediately suspicious when a mysterious stranger named Finn Ambrose claims to be his long lost uncle And those suspicions turn out to be well founded when Jax's best friend Billy is kidnapped When Jax sneaks off to New York City to rescue Billy he discovers a surprising truth Finn is his uncle and Jax hales from the Dulac clan a long line of notoriously dangerous Transitioners who want Riley dead and Evangeline as their prisoner And family or not the Dulacs will stop at nothing to get what they want Inquisition and Power John H. Arnold, 2013-07-20 What should historians do with the words of the dead Inquisition and Power reformulates the historiography of heresy and the inquisition by focusing on depositions taken from the Cathars a religious sect that opposed the Catholic church and took root in southern France during the twelfth century Despite the fact that these depositions were spoken in the vernacular but recorded in Latin in the third person and rewritten in the past tense historians have often taken these accounts as verbatim transcriptions of personal testimony This belief has prompted some historians including E Le Roy Ladurie to go so far as to retranslate the testimonies into the first person These testimonies have been a long source of controversy for historians and scholars of the Middle Ages Arnold enters current theoretical debates about subjectivity and the nature of power to develop reading strategies that will permit a more nuanced reinterpretation of these documents of interrogation Rather than seeking to recover the true voice of the Cathars from behind the inquisitor's framework this book shows how the historian is better served by analyzing texts as sites of competing discourses that construct and position a variety of subjectivities In this critically informed history Arnold suggests that what we do with the voices of history in fact

has as much to do with ourselves as with those we seek to rescue from the silences of past **The K Street Killer** Joseph Flynn, 2011-11-08 Somebody in Washington is updating Shakespeare The first thing he wants to do is kill all the lobbyists Knocking off three of them in consecutive weeks he s off to a fast start On the lapel of each victim the killer leaves a pin that arguably resembles Porky Pig The Metro police are on the case when Putnam Shady steps forward and identifies the third victim as a friend Authority averse Putnam gives the cops only bare bones information but he tells Margaret Sweetie Sweeney that he thinks he will be the next victim The reason he explains is quite simple There are two plans afoot to seize control of the federal government At the center of one plan is the speaker of the House of Representatives The group behind the other plan consisted of Putnam and his three dead colleagues Sweetie vows to protect Putnam She enlists Jim McGill the president s henchman to find out who is behind the murders But then McGill s whole world is turned upside down His son Kenny is diagnosed with leukemia President Patricia Grant s life is only slightly less tumultuous Her enemies force her to leave the Republican Party Erna Godfrey implicates her husband Reverend Burke Godfrey in the killing of Patti s first husband Andrew Hudson Grant But Reverend Godfrey refuses to go down without a fight Amidst the turmoil Welborn Yates and Kira Fahey schedule their marriage and inevitably have to deal with wedding crashers **The Waldenses, 1170-1530**

Peter Biller, 2024-10-28 The Waldenses like the Franciscans emerged from the apostolic movements within the Latin Church of the decades around 1200 but unlike the Franciscans they were driven underground Not a full counter Church like the Cathar heretics they formed a clandestine religious order preaching to and hearing the confessions of their secret followers and surviving until the Reformation This volume begins by surveying modern historiography Then using both inquisition records from the Baltic to the Alps and the Waldenses own books the author deals with the asceticism of the Waldensian order its practice of poverty and medicine the culture of the Brothers and the preaching of the Waldensian Sisters the way both used and mythicised history to support their position and the composition of their followers The final chapters examine their origins and authorship of the inquisitors texts and look through them to see how inquisitors viewed the Waldenses

Defining Heresy Irene Bueno, 2015-09-07 In Defining Heresy Irene Bueno investigates the theories and practices of anti heretical repression in the first half of the fourteenth century focusing on the figure of Jacques Fournier Benedict XII c 1284 1342 Throughout his career as a bishop inquisitor in Languedoc theologian and eventually pope at Avignon Fournier made a multi faceted contribution to the fight against religious dissent Making use of judicial theological and diplomatic sources the book sheds light on the multiplicity of methods discourses and textual practices mobilized to define the bounds of heresy at the end of the Middle Ages The integration of these commonly unrelated areas of evidence reveals the intellectual and political pressures that inflected the repression of heretics and dissidents in the peculiar context of the Avignon papacy
