The Entropy Exhibition Colin Greenland,2013-05-27 Michael Moorcock edited and produced the magazine New Worlds from 1964 to 1973 Within its pages he encouraged the development of new kinds of popular writing out of the genre of science fiction energetically reworking traditional themes images and styles as a radical response to the crisis of modern fiction The essential paradox of the new writing lay in its fascination with entropy the universal and irreversible decline of energy into disorder Entropy provides the key both to the anarchic vitality of the magazine and to its neglect by critics and academics as well as its intimate connection with other cultural experiments of the 1960s The fiction of the New Worlds writers who included Brian Aldiss J G Ballard and Moorcock himself was not concerned with the far future and outer space but with the ambiguous and unstable conditions of the modern world As Ballard put it The only truly alien planet is Earth The Entropy Exhibition is the first critical assessment of the literary movement known as New Wave science fiction It examines the history of the magazine and its background in the popular imagination of the 1960s traces the strange history of sex in science fiction and analyses development in stylistic theory and practice Detailed attention is given to each of the three principal contributors to New Worlds Aldiss Ballard and Moorcock Moorcock himself is most commonly judged by his commercial fantasy novels instead of by the magazine he supported with them but here the balance is at last redressed New Worlds emerges as nothing less than a focus and a metaphor for many of the transformations of English and American literature in the past two decades

Take This Hammer Paul Rekret, 2024-08-27 A study of contemporary music in light of transformations to work and social life The emergence of the popular music industry in the early twentieth century not only drove a wedge between music production and consumption it also underscored a wider separation of labor from leisure and of the workplace from the domestic sphere These were changes characteristic of an industrial society where pleasure was to be sought outside of work but these categories have grown increasingly porous today As the working day extends into the home or becomes indistinguishable from leisure time so the role and meaning of music in everyday life changes too In arguing that the experience of popular music is partly conditioned by its segregation from work and its restriction to the time and space of leisure the evening the weekend the dancehall Take This Hammer

shows how changes to work as it grows increasingly precarious part time and temporary in recent decades are related to transformations in popular music Connecting contemporary changes in work and the economy to tendencies in popular music Take This Hammer shows how song form has both reflected developments in contemporary capitalism while also intimating a horizon beyond it From online streaming and the extension of the working day to gentrification unemployment and the emergence of trap rap from ecological crisis and field recording to automation and trends in dance music by exploring the intersections of work and song in the current era not only do we gain a new understanding of contemporary musical culture we also see how music might gesture towards a horizon beyond the alienating experience of work in capitalism itself **The**
