The Confessions Of Lady Nijo:

The Confessions of Lady Nijo Nakanoin Masatada no Musume, Karen Brazell, 1976 In about 1307 a remarkable woman in Japan sat down to complete the story of her life The result was an autobiographical narrative a tale of thirty six years 1271 1306 in the life of Lady Nijo starting when she became the concubine of a retired emperor in Kyoto at the age of fourteen and ending several love affairs later with an account of her new life as a wandering Buddhist nun Through the vagaries of history however the glory of Lady Nijo s story has taken six and half centuries to arrive The Confessions of Lady Nijo or Towazugatari in Japanese was not widely circulated after it was written perhaps because of the dynastic quarrel that soon split the imperial family or perhaps because of Lady Nijo s intimate portrait of a very human emperor Whatever the cause the book was neglected then forgotten completely and only a single manuscript survived This was finally discovered in 1940 but would not be published until after World War II in 1950 This translation and its annotations draw on multiple Japanese editions but borrow most heavily from the interpretations offered by Tsugita Kasumi [The Confessions of Lady Nijō](#) Nijō, Nakanoin Masatada no Musume, Karen Brazell, 1983 [The confessions of Lady Nijō](#) ,1973 [The Confessions of Lady Nijō](#) ,1976 **The Confessions of Lady Nijō** Nijō, 1973 [Classical Japanese Prose](#) Helen Craig McCullough, 1990 This volume brings together in convenient form a rich selection of Japanese prose dating from the ninth to the seventeenth centuries a period during which the preeminent cultural and aesthetic values were those of the Heian court It contains 22 works representing all the major indigenous literary forms either complete or in generous excerpts and is particularly rich in writing by women and in autobiographical writings This anthology contains longer selections than the only other available anthology which was published in the 1950s and each selection is preceded by an introduction reflecting the most recent scholarship With three exceptions all the translations are by the compilers and almost all of them are published here for the first time Because of space limitations the compiler has omitted the two long masterpieces of the age The Tale of Genji and The Tale of Heike which deserve to be read in their entirety and which are available in paperback English translations The book contains an extensive general introduction thirteen illustrations five maps a glossary and a selected bibliography of works in English translation **The Aesthetics of Discontent** Michele Marra, Michael F. Marra, 1991-01-01 This series of interpretations of selected classics examines premodern Japanese literature from the perspective of conflictual ideologies Professor Marra s analysis of such works as the Ise Monogatari the Hōjōki and Tsurezuregusa highlights the existence of discontent in the authors of the so called high tradition and explains the means these authors used to express their social dissatisfaction in literary texts His aim is to recover the validity of the historicist approach in literary studies by focusing on the importance of the context in the formation of the text The text is seen as a product of ideological manipulation on the part of those who by reading writing or editing appropriate it according to specific and private concerns Professor Marra displays both sensitivity to the texts and a comprehensive grasp of Japanese and Western scholarship in making his argument that

aesthetics and politics in premodern Japanese literature are mutually defining

Traditional Japanese Literature Haruo Shirane, 2012 Traditional Japanese Literature features a rich array of works dating from the very beginnings of the Japanese written language through the evolution of Japan's noted aristocratic court and warrior cultures. It contains stunning new translations of such canonical texts as *The Tale of the Heike* as well as works and genres previously ignored by scholars and unknown to general readers.

The Father-Daughter Plot Rebecca L. Copeland, Esperanza Ramirez-Christensen, 2001-07-31 This provocative collection of essays is a comprehensive study of the father-daughter dynamic in Japanese female literary experience. Its contributors examine the ways in which women have been placed politically, ideologically, and symbolically as daughters in a culture that venerates the father. They weigh the impact that this daughterly position has had on both the performance and production of women's writing from the classical period to the present. Conjoining the classical and the modern with a unified theme reveals an important continuum in female authorship, a historical approach often ignored by scholars. The essays devoted to the literature of the classical period discuss canonical texts in a new light, offering important feminist readings that challenge existing scholarship, while those dedicated to modern writers introduce readers to little-known texts with translations and readings that are engaging and original.

Travelers of a Hundred Ages Donald Keene, 1999 At once an intimate account of the diarist's life and a testimony to the greater struggles and advances of Japanese culture, this book illuminates the hidden and largely unknown worlds of imperial courts, Buddhist monasteries, country inns, and merchants' houses.

Masterworks of Asian Literature in Comparative Perspective Barbara Stoler Miller, 1994-02-17 This is a collection of 46 essays by specialists in Asian literature who offer a wide range of possibilities for introducing Asian literature to English-speaking students. It is intended to help in promoting multicultural education.

Revisiting Mysticism Chandana Chakrabarti, Gordon Haist, 2020-11-30 The twelve essays in this collection promote scholarship on the rich and diverse subject of mysticism by examining the nature of its thought both from Eastern and Western and from philosophical and religious perspectives. These include studies of specific mystics including Teresa de Avila, Lady Nijo, Hiroshi Motoyama, and Mirabai, and thinkers about mysticism including Kant, Nietzsche, and Wittgenstein. The book opens with two descriptive studies of similarities in the life of Teresa de Avila and mystics of very different times and cultures. The issue of mysticism and ethics is addressed in three essays, and central concepts involving pure conscious events and primordial oneness in Nietzsche are addressed in two separate essays. Wittgenstein's comments on mysticism are examined in two essays: one that places them in the perspective of his overall development and the other that studies them in comparison with recent continental thought. The book concludes with two essays that look broadly at the supersensible: one from an examination of Kantian aesthetics and the other from quantum mechanical interpretations of reality. Taken together, these essays attest to the power

of mysticism to provoke reasoned thought about ultimate matters **Mountain/Home** Frank Stewart, Leza Lowitz, 2018-01-31 Mountain Home presents new translations of Japanese literature from the country's medieval period to the present. The narrative arc of the selections follows the evolution of Japan's national self-image. Because Mount Fuji more than any other national symbol has represented the soul of Japan, Mountain Home begins with works inspired by the mountain's presence. They include excerpts from some of the first literary works in which Mount Fuji appears: the mysterious Tale of the Bamboo Cutter, early court poetry, and the Confessions of Lady Nij among others. These works are followed by a chapter from Lady Murasaki's brilliant novel The Tale of Genji and Edo-period haiku by Bashō and Issa. In the twentieth century, Japan went through its darkest years. But out of the trauma of militarism, war, devastation, and defeat came outstanding fiction by Dazai Osamu and Natsume Sōseki as well as avant-garde poetry by Yoshioka Minoru and Ayukawa Nobuo. In recent decades, contemporary optimism has produced writing that breaks new literary ground without forgetting the past: experimental fiction by Kurahashi Yumiko and poetry about everyday life by Takahashi Mutsuo **World Monarchies and Dynasties** John Middleton, 2015-06-01 Throughout history, royal dynasties have dominated countries and empires around the world. Kings, queens, emperors, chiefs, pharaohs, czars—whatever title they ruled by—monarchs have shaped institutions, rituals, and cultures in every time period and every corner of the globe. The concept of monarchy originated in prehistoric times and evolved over centuries right up to the present. Efforts to overthrow monarchies or evade their rule, such as the American, French, Chinese, and Russian revolutions, are considered turning points in world history. Even today, many countries retain their monarchies, although in vastly reduced form, with little political power. One cannot understand human history and government without understanding monarchs and monarchies. This fully illustrated encyclopedia provides the first complete survey of all the major rulers and ruling families of the world, past and present. No other reference work approaches the topic with the same sense of magnitude or connection to historical context. Arranged in A-Z format for ease of access, World Monarchies and Dynasties includes information on major monarchs and dynasties from ancient time to the present. This set includes overviews of reigns and successions, genealogical charts, and dynastic timelines; addresses concepts, problems, and theories of monarchy; provides background and information for further research; highlights important places, structures, symbols, events, and legends related to particular monarchs and dynasties; includes a master bibliography and multiple indexes **Education beyond Europe** Cristiano Casalini, Edward Choi, Ayenachew A. Woldegiyorgis, 2021-02-15 The focus of this volume is on illuminating how local educational traditions developed in particular contexts around the world before or during the encounter with European early modern culture. In this vein, this volume breaks from the common narrative of educational historiography privileging the imposition of European structures and its consequences on local educational traditions. Such a narrative lends to historiographical prejudice that fosters a distorted image of indigenous educational cultures as historyless, as if history was brought to them merely through the influence of European models.
