

EMPATHIC CONFRONTATION

1. Reinforce connection with the client.

I care about that part of you that has suffered

2. Name the maladaptive behaviour:

But when this side of you comes out, this scary "I need to be on top and feared side" it doesn't help us

3. Empathise and acknowledge the reason the behaviour developed and express concern that it does not get their needs met in an adaptive manner today

I know that this side came about when little X had no one and didn't feel important. But right now there is a part of me that no longer wants to help or be around you..

4. Assist in conscious decision making

I want us together to help you change this way of responding, to connect with your healthy adult side.

5. Offer correction - A behaviour that will get their needs met

I have feelings, too and would like to be respected here. This means that my input and ideas are equally as important as yours. Even if we disagree.

6. Offer assistance in learning a new approach:

In this space, we can start to practice different ways of communicating with each other. I will help you learn new skills to communicate
