

*Unos annales históricos de la nación mexicana.* Edited by ERNEST MENGIN. Corpus Codicum Americanorum Medii Aevi; Litterarum Monumenta in Lingua Nahuatl et Maya . . . , Vol. 2. Copenhagen: Einar Munksgaard, 1945.

Despite the Latin title and the curious attempt to view sixteenth century Mexican manuscripts as somehow linked to the bygone medieval world of Europe, "Unos Annales" or the "manuscrito de 1528" is the oldest known specimen of historical composition in European script from the American mainland. Written in the principal language of New Spain, Nāhuatl ("Aztec") and in the part of Mexico City called Tlatelolco, it comprises five related documents, of which Nos. II, III, and IV are congested genealogical and conquest lists. Nos. I and V are fuller narratives, covering the period from prehispanic times to the immediate aftermath of the Conquest. No. I, a "List of the Rulers of Tlatelolco" includes among, other things, a spectacular account (apparently by an eyewitness) of Cortes' march to Honduras (1524-25) and No. V, a "History of Tlatelolco from the Earliest Times" covers the important points of Azteca-Mexica history from their early wanderings down to the siege of Mexico. The latter is movingly described by one of the defenders, and is comparable only to Sahagun's Book XII (Seler, *Einige Kapitel*).

Long known to Mexicanists by reference, these texts have been circulated at last by Dr. Mengin (paleography and German translation, 1939, and the present facsimile in 1945).<sup>1</sup> One who has held in his hands the large coarse pages of native paper on which the original is written, can attest that this reproduction is very good. The plates are probably as exact as can be made. That no copy can quite duplicate an original, is obvious, but reproductions ~~must~~ be made if such time-resisting monuments are to be divulged among scholars, and perhaps if they are to survive the barbarous twentieth century at all. (One notes that this edition was realized in the West despite the Nazi occupation, while eastward the Slavic libraries were being destroyed.)

The tome is hardly designed for purchase by individual students, but constitutes with its companion volumes a continuation of the tradition of Kingsborough, Loubat, and Troncoso: the monumental reproduction of monumental Mexican pictorial writing and texts. In short, it is a reference work for the larger libraries, who can hardly do without it. The pigskin binding gives merited character to this strongly made book, of which each leaf is cloth-hinged. Paper and impression of plates are excellent, but the engraver shows reprehensible carelessness in trimming the outlines of the plates.<sup>2</sup> A multilingual introduction (perhaps unnecessary to the person whose specialized interest leads him to consult the volume) and a good study of the document precede the reproduction. One is grateful to Dr. Mengin for sustaining this valuable series, whose third

volume, we understand, will be the "Annals of the Cakchiquels."

*The Conquest and Colonization of Yucatan, 1517-1550.* ROBERT S. CHAMBERLAIN. Publication, Carnegie Institution of Washington, No. 582. Washington, 1948. vi+365 pp., illustrations, maps.

The publication of this scholarly monograph, the fruit of many years of research, covering a relatively neglected period and area, will be warmly welcomed by students of the Latin American field. Based on an extensive use of the printed chronicles and documents, enriched by wide citation of hitherto unused original documentary sources, the narrative centers around the career of the Adelantado Francisco de Montejo, who directed the long and difficult conquest of the Maya Empire and laid the foundations of Spanish settlement in, and governmental control of, the area.

The story starts with the discovery of the Peninsula of Yucatan by Francisco Hernández de Córdoba on a slave-hunting expedition from Cuba in 1517. After recounting Montejo's early role in the conquest of Mexico and the struggle between Cortés and Velásquez, the governor of Cuba, over the right to conquer and colonize the peninsula, the civilization and potential riches of which, given the example of Mexico, were quite alluring, the main story starts with Montejo's royal grant of authority to conquer and colonize Yucatan, erroneously called "Islands," in 1526. The main body of the narrative is next concerned with the invasion of Yucatan, starting in 1527, with the conquest of Cozumel Island and the adjacent coast of Salamanca de Xelha. After the subjugation of the Chikin-chels, the long conquest from the west, of Tabasco and Acalán, in the years 1529-1531, is recounted with emphasis on the founding of Salamanca de Campeche in 1531. After a brief treatment of Montejo's interim career, there is a discussion of the Spanish withdrawal from Yucatan late in 1534, followed by the full narrative of the final conquest launched in 1547. Appropriate chapters on the Church, with stress on the Franciscans, government, and colonization into 1550, conclude the account. Montejo's suspension from office, final years, and death are recounted and the passing of the title to his descendants as an honorary office receives due attention.

The volume lacks an index, so that the details have to be tracked down page by page. The map opposite p. 164, mingles Spanish and English place names so that you have "Isla de Mujeres" adjacent to "Cozumel Island," "Río Hondo" is next to New River, the Bay of Honduras lies below the "Bahía de Espíritu Santo," with an accent misplaced on "Espíritu." "Mar del Norte" appears as North Sea, and there is South Sea or Pacific Ocean instead of "Mar del Sur." These and other examples of the intermingling of the two languages may confuse some readers. Save in a few instances, the actual text of supporting archival materials is not printed in the footnotes and only an

<sup>1</sup> A Spanish language edition derived from Mengin with analytical notes appeared in 1948 as "Annales de Tlatelolco."

<sup>2</sup> Note the discrepancy in outlines of recto and verso of the same leaf, published as Pls. 3 and 4.
