The Consent Of The Governed:

The Consent of the Governed John C. Livingston, Robert G. Thompson, 1966 **The Consent of the Governed** Gillian Brown, 2001 What made the United States what it is began long before a shot was fired at a redcoat in Lexington Massachusetts in 1775 The theories of reading developed by John Locke were the means by which a revolutionary attitude toward authority was disseminated throughout the British colonies in North America **Beyond the Consent of the Governed** Craig M. Farnham, 2021-03-25 An actor who left the glitz and glamour of Hollywood and stepped onto the political stage The son of a former president who as president himself led the nation to war And the first African American to be elected president of the United States American history is filled with saints and sinners as well as leaders who inhabit a space somewhere in between It is important that we learn from them and from our successes and failures as a nation as we look ahead and map out a role for the United States in the 21st century In this engaging new book the author examines three presidential administrations whose legacies are at best mixed Ronald Reagan is the man who conservatives love to love though his actual record as president involves runaway deficit spending and a scandal Iran Contra that nearly cost him the White House George W Bush was a president whose personal faith resonated with many Americans however his decisions following the attacks on 9 11 would lead the United States into war abroad and ultimately endanger the economy at home It is too soon to judge in history s full scope the presidency of Barack Obama An early verdict though would be less than glowing pointing to a period of political stagnation in Washington and of a president s inability to successfully deliver on the promise of change Whether one agrees or disagrees with the assessments laid out in the pages of this book hopefully readers will put aside the name calling and the venom of recent partisanship It is hoped that We the People can agree in spirit while disagreeing on specific policy and together begin a more open and honest discussion of the roads already traveled and the decisions we face looking forward This cannot be done though unless and until Americans acknowledge the cracks and imperfections in the image Ronald Reagan painted of a shining city on a hill *Creating Consent of the Governed* Stephanie Greco Larson, 1992 What would happen if local media provided information that elected representatives did not control that focused on political issues This is the question that Stephanie Greco Larson asks and answers in *Creating Consent of the Governed* Larson explores the role of the news media in contemporary American politics specifically the effect of the media on voters evaluations of elected representatives Larson also asks whether the press or the public is responsible for society s present inattention to issues Larson s book is a case study of the way constituents reacted to local media coverage of Democrat Bill Nelson representative of a congressional district in east central Florida The book examines the relationship between Nelson his local press and his constituents in order to understand the media s role in representation Having conducted what she terms a social experiment Larson presents the results of a panel survey of voters that measured what voters knew about Nelson and how supportive they were of him She highlights a number of factors of growing importance in

the field of political communication For instance How do the media affect audience perceptions What information will change voters attitudes How does personality affect the popularity of a representative Does good or bad news have a greater effect on voters Larson concludes that the media can educate voters but because voters often do not use the information to evaluate their legislators the media do not facilitate issue representation

Brown** Herbert Fielder, 1883 The Ethics of Consent Franklin Miller, Alan Wertheimer, 2010

Consent is a basic component of the ethics of human relations making permissible a wide range of conduct that would otherwise be wrongful Consent marks the difference between slavery and employment permissible sexual relations and rape borrowing or selling and theft medical treatment and battery participation in research and being a human guinea pig This book assembles the contributions of a distinguished group of scholars concerning the ethics of consent in theory and practice Part One addresses theoretical perspectives on the nature and moral force of consent and its relationship to key ethical concepts such as autonomy and paternalism Part Two examines consent in a broad range of contexts including sexual relations contracts selling organs political legitimacy medicine and research

Orations of American Orators ,1900 **Property and the Pursuit of Happiness** Edward J.

Erler,2019-07-26 In this book Edward Erler brings a lifetime of study of political philosophy the American founding and the US constitution to the central role of property in American constitutional thought Erler argues that the Founders considered the natural right to property as the comprehensive right that included every other right In this sense they followed political philosopher John Locke but at the same time made significant improvements on Locke making it moral and political something they called the pursuit of happiness In the past century this understanding of the right to property derived from the principles of the Declaration of Independence has been challenged by the rise of progressivism which places promoting community welfare above the protection of individual rights as the central role of government This has led to the administrative state s unrelenting attacks on the right to private property which have effectively ended the right to property as it was understood by the founders Property and the Pursuit of Happiness offers a learned and wide ranging discussion of the values at the core of America s founding that will be of interest to all readers seeking to understand the founders vision and the profound challenges to it today

The Moral Authority of Government Henry Barbera,R. Hoxie,2023-05-31

These new essays prepared to commemorate the centennial of the National Institute of Social Sciences have been carefully crafted to deal with an overriding concern of our time those elements in political rule that go beyond legal rights and responsibilities into the moral requirements of effective governance The principal theme of this book is presidential leadership The presidency personifies government authority including moral authority In the first part of this book most of the essays argue that the moral authority of leaders depends on high personal standards as well as policy outcomes The second segment on the rule of law and character raises considerations not limited to the presidency Character and the authority that derives from it are demonstrated most effectively not by what someone does in his or her personal life but in the moral values of the causes espoused and effectiveness in pursuing them In the realm of international affairs governmental leadership must wrestle with the moral and constitutional guidelines known as reasons of state Under what circumstances is it morally acceptable for a leader or government to practice deception upon the citizenry to overthrow other governments to bomb civilians Many contributors raise the issue of what permits a government to take actions that would be immoral or illegal in individuals or groups The final segment expands and deepens this theme by exploring the work and role of non governmental agencies that influence both leaders and citizens in the public arena In short at a period that brings to a close a period in which the presidency has become more visible as well as more prominent this collective effort sheds new light on classic themes It will be an invaluable guide as we enter the new century The contributors include an illustrious galaxy of public officials and political scientists including Madeleine K Albright Judith A Best Betty Glad C Lowell Harriss Travis Beal Jacobs Ruth P Morgan Stanley A Renshon Donald L Robinson and William vanden Heuvel
