Reading the Entrails Norman Charles Conrad, 1999

Before the Fall of Imperial Rome priests cast the internal organs of sacrificial animals on temple floors claiming to be able to divine the future from these entrails By probing the remains of Alberta s past sacrifices reading her entrails Norman Conrad believes that we might dimly see at apparition of Alberta s future This controversial book vividly portrays the history of land and life in Alberta from the Ice Ages to the present Making no apology for his criticism of government regulators and large corporations Norman Conrad makes a strident plea for Alberta s dangerously imperiled environment and presents a model that can be applied anywhere

Culture, Society, Economy Don Robotham, 2005-03-30 Robotham offers here a clear headed expos of the limits of classical liberalism in the face of world production today His theme is both urgent and iconoclastic There is an unusual clarity about the exposition and a drive that comes from passionate engagement combined with long experience reading and reflection Keith Hart Goldsmiths College London In *Culture Society and Economy* Don Robotham examines the failure of recent social theory to grasp the problems of globalization and the emergence of corporate monopoly capital and sets out his own argument for a radical solution He argues that the neglect of economics by both cultural studies and social theory has weakened the ability to develop viable alternatives to present day capitalist globalization With deep awareness of and reference to current events and contemporary trends the author presents a detailed critique of cultural studies in particular Stuart Hall and Paul Gilroy Giddens theory of risk society Scott Lash and John Urry s economies of signs and space Manuel Castells theory of network society The final chapters make a unique argument that the solution to the problems of globalization lies in more globalization rather than adopting an anti globalization or localization position Don Robotham proposes more effective centralized institutions for governing the world economy in other words world government
