In order to accelerate the construction of the data foundation system, give full play to the advantages of China's massive data scale and rich application scenarios, activate the potential of data elements, make stronger, better and bigger digital economy, enhance the new momentum of economic development, and build a new national competitive advantage, relevant opinions are put forward.

The Art of Foreign Language Teaching Peter Lutzker, 2022-01-31. The first edition of this work became a standard reference work in the general context of humanistic approaches to foreign language teaching and learning. This new edition gives a brief overview of further developments in relevant fields and discusses the importance of the concept of teaching as an art in light of the increasing standardization and digitalization of education. Reviews of the 1st edition: I believe that the book will become a standard reference point for all those who, against the current tide of scientific objectives based test oriented control obsessed sterile approaches to language teaching, continue to believe that language teaching is indeed an art and a joyful art. At that Prof. Dr. Alan Maley in *English Language Teaching Journal*. Peter Lutzker is a major educational thinker and has spent half an earthly span living towards this major book. I have placed Peter's book on my shelves next to those of Rogers Curran Dufeu and Stevick Mario Rinvolucri in *Humanising Language Teaching*.
