Third Series* Library of Congress. Copyright Office, 1976 *Limits to Satisfaction* William Leiss, 1988

At a time when the supply of resources is a problem William Leiss analyses demand and consumption Why do we need so much Does the ability to choose from such a wide range of commodities give us more satisfaction Why do we accept being pushed into buying products about which we know little because they promise to give us a particular characteristic freshness happiness sex appeal **Friends Journal** ,1976 Issues for Consideration--review of National Breeder Reactor Program, Materials Compiled by the Staff of the Ad Hoc Subcommittee to Review the Liquid Metal Fast Breeder Reactor Program of 1975 United States. Congress. Atomic Energy Joint Committee, 1975 *Who Owns Appalachia?* Appalachian Land Ownership Task Force, 2021-10-21

Long viewed as a problem in other countries the ownership of land and resources is becoming an issue of mounting concern in the United States Nowhere has it surfaced more dramatically than in the southern Appalachians where the exploitation of timber and mineral resources has been recently aggravated by the ravages of strip mining and flash floods This landmark study of the mountain region documents for the first time the full scale and extent of the ownership and control of the region s land and resources and shows in a compelling yet non polemical fashion the relationship between this control and conditions affecting the lives of the region s people Begun in 1978 and extending through 1980 this survey of land ownership is notable for the magnitude of its coverage It embraces six states of the southern Appalachian region Virginia West Virginia Kentucky Tennessee North Carolina and Alabama From these states the research team selected 80 counties and within those counties field workers documented the ownership of over 55 000 parcels of property totaling over 20 million acres of land and mineral rights The survey is equally significant for its systematic investigation of the relations between ownership and conditions within Appalachian communities Researchers compiled data on 100 socioeconomic indicators and correlated these with the ownership of land and mineral rights The findings of the survey form a generally dark picture of the region local governments struggling to provide needed services on tax revenues that are at once inadequate and inequitable economic development and diversification stifled increasing loss of

farmland a traditional source of subsistence in the region Most evident perhaps is the adverse effect upon housing resulting from corporate ownership and land speculation Nor is the trend toward greater conglomerate ownership of energy resources the expansion of absentee ownership into new areas and the search for new mineral and energy sources encouraging Who Owns Appalachia will be an enduring resource for all those interested in this region and its problems It is moreover both a model and a document for social and economic concerns likely to be of critical importance for the entire nation *Hearings and Reports on Atomic Energy* United States. Congress. Joint Committee on Atomic Energy, 1975 **Issues for Consideration--review of National Breeder Reactor Program**, 1975 No More Plastic Jesus Adam Daniel Finnerty, 1978 Discusses the seriousness of the worldwide dilemma of hunger depletion of natural resources and pollution and suggests ways to reclaim the planet particularly ways that the church as an institution can help and also ways responsive adults in adopting a simple truly Christian lifestyle can contribute to global change **Energizing Neoliberalism** Caleb Wellum, 2023-10-17 How the 1970s energy crisis facilitated a neoliberal shift in US political culture In *Energizing Neoliberalism* Caleb Wellum offers a provocative account of how the 1970s energy crisis helped to recreate postwar America Rather than think of the crisis as the obvious outcome of the decade's oil shocks Wellum unpacks the cultural construction of a crisis of energy across different sectors of society from presidents policy experts and environmentalists to filmmakers economists and oil futures traders He shows how the dominant meanings ascribed to the 1970s energy crisis helped to energize neoliberal visions of renewed abundance and power through free market values and approaches to energy Deeply researched in federal archives expert discourse and popular culture *Energizing Neoliberalism* demonstrates the central role that energy crisis narratives played in America's neoliberal turn Wellum traces the roots of the crisis to the consumption practices and cultural narratives spawned by the petrocultural politics of Cold War capitalism In a series of illuminating case studies including 1970s energy conservation debates popular car films and the creation of oil futures trading Wellum chronicles the consolidation of a neoliberal capitalist order in the United States through an energy politics marked by anxious futurity petro populist sentiment and financialized energy markets He shows how experiences of energy shortages and fears of future energy crises unsettled American national identity and power yet also informed Reagan era confidence in free markets and US global leadership In taking a cultural approach to the 1970s energy crisis Wellum offers a challenging meditation on the status of crisis in modern history contemporary life and critical thought and how we rely on crises to make sense of the world *The Unmanageable Consumer* Yiannis Gabriel, Tim Lang, 2015-09-21 *The Unmanageable Consumer* has long been one of my favorite books in the sociology of consumption This long overdue third edition has updated and revised the basic argument in many ways Most importantly it now offers a new chapter on the consumer as worker or more generally the prosumer Assign it to your classes I have and will again and read it for your edification George Ritzer Distinguished University Professor University of Maryland USA Western style consumerism is often presented as unstoppable yet its costs

mount and its grip on consumer reality weakens In this 20th Anniversary edition Gabriel and Lang restate their thesis that consumerism is more fragile and unmanageable than is assumed by its proponents Consumerism has been both stretched and undermined by globalization the internet social media and other cultural changes Major environmental threats debt squeezed incomes and social inequalities now temper Western consumers appetite for spending The 20th century Deal first championed by Henry Ford of more consumption from higher waged work looks tattered This edition of The Unmanageable Consumer continues to explore 10 different consumer models and encourages analysis of contemporary consumerism It looks at the spread of consumerism to developing countries like India and China and considers the effects of demographic changes and migration and points to new features such as consumers taking on unwaged work New to this edition Coverage of new phenomenon such as social media and emerging markets Explores contemporary topics including the occupy movement and horsemeat scandal A new chapter on the consumer as worker This is a remarkable and important book The new edition updates consumer cultural studies to take into account austerity politics and the economic crisis and the impact these have had on how we think about and experience everyday practices of shopping and consuming The authors also build on and maintain the lively and challenging argument from the previous volumes which sees the consumer as an unstable space for a multiplicity of often contradictory responses which can unsettle the various strategies on the part of contemporary capitalism to have us buy more Angela McRobbie Goldsmiths University of London The book exemplifies how social science should be engaged insightful imaginative scholarly and highly socially and politically relevant Strongly recommended to students academics as well as all people interested in understanding our time and themselves in an age of consumerism and false promises Mats Alvesson Professor of Business Administration Lund University Sweden
