McFaul,2009-11-19 This book offers a bold forecast of the year 2050 and what life will look like in the emerging global village Is this profound new work Thomas McFaul examines the interwoven concepts of truth and freedom in the context of the Modernist movement that has fundamentally reshaped our world McFaul s thesis Societies that make truth and freedom their signature values stand the best chance of prospering in the emerging global village In *The Future of Truth and Freedom in the Global Village* Modernism and the Challenges of the Twenty first Century McFaul relates the two cornerstone ideas of truth and freedom to the development of Modernism and its impact on science religion ethics economics and politics This sets the stage for thought provoking speculation as McFaul forecasts what life might be like in the year 2050 with scenarios that range from moving forward as a unified world embracing new possibilities to sliding back to the good old days McFaul s well reasoned conclusion is that any society s long term viability rests on having the freedom to adapt to changes in the modern world in new and creative ways **On the Threshold of the Third Millennium** ,1990 *Sport, Militarism and the Great War* Thierry Terret,J. A. Mangan,2013-09-13

The Great War has been largely ignored by historians of sport However sport was an integral part of cultural conditioning into both physiological and psychological military efficiency in the decades leading up to it It is time to acknowledge that the Great War also had an influence on sport in post war European culture Both are neglected topics *Sport Militarism and the Great War* deals with four significant aspects of the relationship between sport and war before during and immediately after the 1914 1918 conflict First it explores the creation and consolidation of the cult of martial heroism and chivalric self sacrifice in the pre war era Second it examines the consequences of the mingling of soldiers from various nations on later sport Third it considers the role of the Great War in the transformation of the leisure of the masses Finally it examines the links between war sport and male socialisation The Great War contributed to a redefinition of European masculinity in the post war period The part sport played in this redefinition receives attention *Sport Militarism and the Great War* is in two parts the Continental Part I and the Anglo Saxon Part II No study has adopted this bilateral approach to date Thus in conception and execution it is original With its originality of content and the approaching centenary of the advent of the Great War in 2014 it is anticipated that the book will capture a

The Future of Peace and Justice in the Global Village Thomas R.
