South Asian Folklore in Transition Frank J. Korom,Leah K. Lowthorp,2020-05-21 The Indian Subcontinent has been at the centre of folklore inquiry since the 19th century yet while much attention was paid to India by early scholars folkloristic interest in the region waned over time until it virtually disappeared from the research agendas of scholars working in the discipline of folklore and folklife This fortunately changed in the 1980s when a newly energized group of younger scholars who were interested in a variety of new approaches that went beyond the textual interface returned to folklore as an untapped resource in South Asian Studies This comprehensive volume further reinvigorates the field by providing fresh studies and new models both for studying the lore and the life of everyday people in the region as well as their engagement with the world at large By bringing Muslims material culture diasporic horizons global interventions and politics to bear on South Asian folklore studies the authors hope to stimulate more dialogue across theoretical and geographical borders to infuse the study of the Indian Subcontinent s cultural traditions with a new sense of relevance that will be of interest not only to areal specialists but also to folklorists and anthropologists in general This book was originally published as a special issue of South Asian History and Culture
