The Myths of Mexico & Peru Lewis Spence, 2020-07-16 *The Myths of Mexico Peru* is a detailed study on the history and mythology of ancient Aztecs and Incas providing valuable information to allow understanding into the background of Latin American heritage The book includes tales of the myths of creations legends of numerous Mesoamerican Gods such as Quetzalcoatl Tlaloc Tezcatlipoca and Huitzilopochtli and many other interesting folk tales of the ancient tribes of Mexico and Peru

Aztec and Maya Myths Karl Taube, 1993 The myths of the Aztec and Maya derive from a shared Mesoamerican cultural tradition This is very much a living tradition and many of the motifs and gods mentioned in early sources are still evoked in the lore of contemporary Mexico and Guatemala Professor Taube discusses the different sources for Aztec and Maya myths The Aztec empire began less than 200 years before the Spanish conquest and our knowledge of their mythology derives primarily from native colonial documents and manuscripts commissioned by the Spanish The Maya mythology is far older and our knowledge of it comes mainly from native manuscripts of the Classic period over 600 years before the Spanish conquest Drawing on these sources as well as nineteenth and twentieth century excavations and research including the interpretation of the codices and the decipherment of Maya hieroglyphic writing the author discusses among other things the Popol Vuh myths of the Maya the flood myth of Northern Yucatan and the Aztec creation myths

The Mythology of all Races Hartley Burr Alexander, Ph.D., 1920 [Man's Most Dangerous Myth: The Fallacy of Race](#) Ashley Montagu, 2011-11-29

DR ASHLEY MONTAGU S book possesses two great merits rarely found in current discussions of human problems Where

most writers over simplify he insists on the principle of multiple and interlocking causation And where most assume that facts will speak for themselves he makes it clear that facts are mere ventriloquists dummies and can be made to justify any course of action that appeals to the socially conditioned passions of the individuals concerned These two truths are sufficiently obvious but they are seldom recognized for the good reason that they are very depressing To recognize the first truth is to recognize the fact that there are no panaceas and that therefore most of the golden promises made by political reformers and revolutionaries are illusory And to recognize the truth that facts do not speak for themselves but only as man s socially conditioned passions dictate is to recognize that our current educational processes can do very little to ameliorate the state of the world In the language of traditional theology so much more realistic in many respects than the liberal philosophies which replaced it most ignorance is voluntary and depends upon acts of the conscious or subconscious will Thus the fallacies underlying the propaganda of racial hatred are not recognized because as Dr Montagu points out most people have a desire to act aggressively and the members of other ethnic groups are convenient victims whom one may attack with a good conscience This desire to act aggressively has its origins in the largely unavoidable frustrations imposed upon the individual by the processes of early education and later adjustments to the social environment Dr Montagu might have added that aggressiveness pays a higher dividend in emotional satisfaction than does co peration Co peration may produce a mild emotional glow but the indulgence of aggressivness can be the equivalent of a drinking bout or sexual orgy In our industrial societies the goodness of life is measured in terms of the number and intensity of the excitements experienced Popular philosophy is moulded by and finds expression in the advertising pages of popular magazines Significantly enough the word that occurs more frequently in those pages than any other is thrill Like sex and alcohol aggressiveness can give enormous thrills Under existing social conditions it is therefore easy to represent aggressiveness as good Concerning the remedies for the social diseases he has so penetratingly diagnosed Dr Montagu says very little except that they will have to consist in some process of education But what process It is to be hoped that he will answer this question at length in another work

ALDOUS HUXLEY **Myths and Legends: The North American Indians, by Lewis Spence** ,1930 The Native Races of the Pacific States of North America: Myths and languages. 1875 Hubert Howe Bancroft,1875 Extensive anthropological ethnographic linguistic archaeological and historical work on the Indians of the North Central and South Americas and in North America as far east as the Mississippi Valley **Nationalist Myths and Ethnic Identities** Natividad

Gutierrez,2015-11 This timely study examines the processes by which modern states are created within multiethnic societies How are national identities forged from countries made up of peoples with different and often conflicting cultures languages and histories How successful is this process What is lost and gained from the emergence of national identities Natividad Gutierrez examines the development of the modern Mexican state to address these difficult questions She describes how Mexican national identity has been and is being created and evaluates the effectiveness of that process of state building Her

investigation is distinguished by a critical consideration of cross cultural theories of nationalism and the illuminating use of a broad range of data from Mexican culture and history including interviews with contemporary indigenous intellectuals and students an analysis of public school textbooks and information gathered from indigenous organizations Guti rrez argues that the modern Mexican state is buttressed by pervasive nationalist myths of foundation descent and heroism These myths expressed and reinforced through the manipulation of symbols public education and political discourse downplay separate ethnic identities and work together to articulate an overriding nationalist ideology The ideology girding the Mexican state has not been entirely successful however This study reveals that indigenous intellectuals and students are troubled by the relationship between their nationalist and ethnic identities and are increasingly questioning official policies of integration
