It is also electro dialysis for the desalination of brackish water, a first attempt to bridge the gap between the water to produce potable water; 3. reverse theory and practice osmosis for the desalination of seawater; 4. There are several groups which may benefit ultrafiltration for the concentration of large proteins from this handbook. It can be used as educational molecules from cheese, casein, whey, and tional material for industrial personnel engaged in milk and 5. microfiltration for the sterilization in membrane separations.
