Pluto's

...the spacecraft flew by Pluto in July 2015, it photographed what scientists say is the heart-shaped region of the dwarf planet. This 3-D image was created using two images taken about 10,000 miles apart on July 14. The first image was snapped about 10,000 miles from Pluto and the second was taken when the spacecraft was 50,000 miles (about 100,000 miles) away. Break out your 3-D glasses for the best view.

Slide Caption

(CNN) — Do you miss seeing all those amazing new images of Saturn? It's because Cassini is gone.

The [Cassini mission to explore Saturn and its moons](#) ended September 15, concluding a 13-year stream of awe-inspiring photos and observations that changed the way scientists look at the gas giant. There aren't

other spacecraft to take a return trip to the ringed planet, although NASA is looking for future missions.

Still missing Cassini? Here's what else is out there

By Ashley Brinkland, CNN | Oct. 16, 2017

Send to Kindle

- Cassini is over, but other missions continue to explore our solar system
- Missions are underway for Mars, Jupiter and the edge of our solar system

(CNN) Do you miss seeing all those amazing new images of Saturn? It's because Cassini is gone.

The [Cassini mission to explore Saturn and its moons ended](#) September 15, concluding a 13-year stream of awe-inspiring photos and observations that change the way scientists look at the gas giant. There aren't currently plans for another spacecraft to take a return trip to the ringed planet, although NASA has accepted proposals for future missions.

Even as skywatchers mourn Cassini, it's worth remembering what's next.

It may be our solar system, but astronomers say there is still so much we don't know about our home within the Milky Way galaxy. Plenty of other spacecraft are out there exploring — specifically Mars, Jupiter and even Pluto and objects on the edge of the solar system.

Just look at the New Horizons mission, exploring the deepest reaches of our solar system — most definitely where no man has gone before.

New Horizons is [preparing](#) for a New Year's Day 2019 flyby of Kuiper Belt object MU69, the most distant object any spacecraft has explored, according to the flight

The Mercury Reader: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
