The Might That Was Assyria:

The Might that was Assyria H. W. F. Saggs, 1984 *Nahum* Daniel C. Timmer, 2020-08-04 Designed for the pastor and Bible teacher the Zondervan Exegetical Commentary on the Old Testament features today's top Old Testament scholars and brings together commentary features rarely gathered together in one volume With careful discourse analysis and interpretation of the Hebrew text the authors trace the flow of argument in each Old Testament book showing that how a biblical author says something is just as important as what they say Commentary on each passage follows a clear structure to help readers grasp the flow and meaning of the text The Main Idea of the Passage A one or two sentence summary of the key ideas the biblical author seeks to communicate Literary Context A brief discussion of the relationship of the specific text to the book as a whole and to its place within the broader argument Translation and Exegetical Outline Commentators provide their own translations of each text formatted to highlight its discourse structure and accompanied by a coherent outline that reflects the flow and argument of the text Structure and Literary Form An overview of the literary structure and rhetorical style adopted by the biblical author highlighting how these features contribute to the communication of the main idea of the passage Explanation of the Text A detailed commentary on the passage paying particular attention to how the biblical authors select and arrange their materials and how they work with words phrases and syntax to communicate their messages Canonical and Practical Significance The commentary on each unit will conclude by building bridges between the world of the biblical author and other biblical authors and with reflections on the contribution made by this unit to the development of broader issues in biblical theology particularly on how later Old Testament and New Testament authors have adapted and reused the motifs in question The discussion also includes brief reflections on the significance of the message of the passage for readers today The Zondervan Exegetical Commentary on the Old Testament series is the go to resource for pastors and Bible teachers looking for deep but accessible study that equips them to connect the needs of Christians today with the biblical text The Troubles of Templeless Judah Jill Middlemas, 2005-10-13 The time of the Babylonian captivity is of seminal importance for the formation of the Hebrew Bible as well as for the religious development of Judaism Jill Middlemas challenges conventional notions surrounding this period arguing that too much importance has been placed on the perspective of the Golah community *Assyrian and Babylonian Chronicles* Albert Kirk Grayson, 2000 Originally published Locust Valley N Y J J Augustin 1975 **The Characterization of an Empire** Mary Katherine Yem Hing Hom, 2018-07-06 Assyria the missing link in the superpower oppressor type in the Hebrew Bible Old Testament still suffers from modern scholarly neglect The Characterization of an Empire aims to alleviate this neglect while also elucidating the historical biblical books that convey characterizations of Assyrians The narratological insights gained throughout this study contribute to biblical literary studies at rigorous detailed sometimes deep and sometimes complex levels Thus this book offers to be not only a contribution to the general corpus of biblical literary studies but also an expansion of our paradigms regarding the

detail depth and complexity at which narratological intention and artistry function in the biblical text **Sacrificing the Self** Margaret Cormack, 2002-07-18 Though considered by devotees to be perhaps the most potent expression of religious faith dying for one's god is also one of the most difficult concepts to understand This work seeks to foster a greater understanding of these acts *The Origins of Globalization* Karl Moore, David Charles Lewis, 2009-06-02 The Origins of Globalization presents a startling look at the shape of known world globalization dating back to the Roman Empire and earlier including multicultural workforces tariff reduced zones interregional tax issues currency risks and other phenomena
