The Fifth Dimension Vera Stanley Alder, 2000-01-15 Vera Stanley Alder invites readers to test meditation by choosing a subject they don't know and learning about it by using the exercises and meditations in the book. He explores the variety of claims made about the effects of meditation, what happens to the student biologically and physically, changes the practice of balanced living and the phenomena that leads to ultimate fulfillment and achievement.

The Natural Bible for Modern and Future Man John F. Brain, 2004 Writing under the pen name John F. Brain, the author of *The Natural Bible for Modern and Future Man* calls upon the most advanced knowledge of modern neuroscience to discuss the origin and practice of religions around the world. The author uses contemporary knowledge of the interaction of the three principal development stages of neural evolution in humans to explain the wide range of religious beliefs and related behavior among the various cultures in the global community. This book is directed towards those interested in issues such as separation of church and state, the ethical application of new human sciences, changing views of sexuality and the continued clash of cultures around the globe. *The Natural Bible for Modern and Future Man* strongly emphasizes the need for greater care in exercising the responsibilities of leadership, especially those involved in legislative, judicial and educational processes. Future Man Tim Samuels, 2019-07-16 A sharply intelligent, explosively honest and laugh-out-loud funny look at the state of masculinity and how to be a man for fans of Jon Ronson and Matt Haig. If ever there was an urgent need for a frank understanding of what's going on with men, it is now. Male rage and frustration have driven resurgent populism, mass shootings and epidemics of addiction and violence. Powerful men who have abused their positions for decades have been and are being MeToo'ed and dismissed. The patriarchy, that solid bedrock of male power for thousands of years, seems to be crumbling. In *Future Man*, with his characteristic intelligence and humor, Tim Samuels assesses the state of contemporary manhood, its conflicts, confusions and challenges. Trapped in bodies barely changed since cavemen days, men are contending with the stresses of corporate culture, lifelong commitment, rampant depression and crazy expectations to be successful at work and at home. But how can you hunt and gather in an open-plan office? Why do men make up to 95 percent of Fortune 500 CEOs yet 93 percent of the prison population? Why do men commit suicide at more than three times the rate of women? Drawing on his own experience and reporting, Samuels addresses such topics as dating, aging, fatherhood, porn, violence, mental health and the trouble with monogamy, as well as issues related to toxic masculinity, the man box, gender roles and role models. The American edition has been updated and includes a new preface.

Homo Cosmicus Todor Bombov, In 1989 the Brazilian student Paulo Roberto was abducted by a flying saucer. His captors are representatives of a super-developed civilization inhabiting the star Cygni 61, which they call Omeron. This is civilization parent of the terrestrial one.
