The Politics Of Federal Judicial Administration:

The Politics of Federal Judicial Administration Peter Graham Fish, 2015-03-08 Although administrative policy making is overshadowed by the drama of judicial decision making it is a vital part of the judicial process Peter Graham Fish examines the structure and legislative history of the various institutions of the federal judicial administration their development and their operation He focuses on the lower courts to show that although it is delimited by a network of formal institutions the federal judicial administration is characterized by informality and voluntarism and depends as he emphasizes on the roles played by individual judges As administrators judges become deeply involved in politics and Peter Graham Fish concentrates on the politics of the national judicial administration Within this framework he raises enduring issues Shall local federal judges be wholly independent or must they conform to uniform standards of law and administration Shall administration be separate and diffused or united and centralized Shall politics be superior or subordinate to so called standards of efficiency Shall the interests of trial judges prevail over or be subordinate to the regional and national interests of appellate judges How shall money manpower jurisdictional and structural changes be distributed among the courts To what extent if any should judges modify their behavior or institutions to meet external criticism Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
