The Postcard:

The Postcard's Radical Openness Mariluz Restrepo, 2024-04-05 *The Postcard's Radical Openness* offers a groundbreaking exploration of what this multifaceted double sided open card entails and how it has affected our being in the world. With a holistic approach it focuses on studying the postcard's specific way of being and performing a particular ontology that opens up what is constitutively implicated in such an apparently trivial artifact. The book organized into four parts meticulously unveils the postcard's political, technological, aesthetic and ethical dimensions ending with a coda correlating the postcard's radical openness to G. Klimt's painting *Nuda Veritas* 1899 in reference to the scope of truth. By examining the postcard's complex worldwide history, its socio-cultural significance and its global effect, the book reveals hidden stories shedding light on its impact on photography, printing, marketing, trade and business practices and exposes the aesthetic, communicative and ethical qualities that lie behind the enormous success of postcards at the turn of the 20th century. This comprehensive study is positioned as a thought provoking invitation to scholars and students interested in material culture, media studies and human interactions as well as to history enthusiasts, art lovers and postcard collectors. Offering a distinctive contribution, the book not only fills a void in the literature but also encourages readers to question and reflect on the transformative power inherent in the postcard's radical openness, presenting a novel and unparalleled analysis of this seemingly trivial yet culturally significant object.

USPTO Image File Wrapper Petition Decisions 0234, **Picturing the Postcard** Monica Cure, 2018-12-18 The first full length study of a once revolutionary visual and linguistic medium. Literature has died many times; this book tells the story of its death by postcard. *Picturing the Postcard* looks to this unlikely source to shed light on our collective modern day obsession with new media. The postcard, almost unimaginably, now produced at the end of the nineteenth century, the same anxieties and hopes that many people think are unique to twenty first century social media such as Facebook or Twitter. It promised a newly connected social world accessible to all and threatened the breakdown of authentic social relations and even of language. Arguing that new media is as much a discursive object as a material one and that it is always in dialogue with the media that came before it, Monica Cure reconstructs the postcard's history through journals, legal documents and sources from popular culture, analyzing the postcard's representation in fiction by well known writers such as E. M. Forster and Edith Wharton and by more obscure writers like Anne Sedgwick and Herbert Flowerdew. Writers deployed uproar over the new medium of the postcard by Anglo-American cultural critics to mirror anxieties about the changing nature of the literary marketplace which included the new role of women in public life, the appeal of celebrity and the loss of privacy, an increasing dependence on new technologies and the rise of mass media. Literature kept open the postcard's possibilities and in the process reimagined what literature could be.
